Mentee-Mentor

Question types: presenter and mentee views

Every question type in Mentee-Mentor, each with a sample question, shown from both sides: the presenter (admin) screen on the projector and the mentee (user) screen on a phone. Fastest Fingers First is shown for each of its answer modes. Screenshots were taken from the app running in demo mode with sample answers from 14 mentees, so the join address shows “localhost” instead of your live site.

Question types

1. Multiple Choice
2. Scenario
3. Word Cloud
4. Open Ended
5. Scales
6. Ranking
7. Q&A
8. Guess the Number
9. 100 Points
10. 2 x 2 Grid
11. Quick Form
12. Pin on Image

Fastest Fingers First

1. Multiple choice (MCQ)
2. Short answer (checked)
3. Arrange in order (words → sentence)
4. Arrange in order (steps → sequence)
5. Open ended (no checking)
6. Buzzer

Other slides

1. Blank slide

QUESTION TYPES

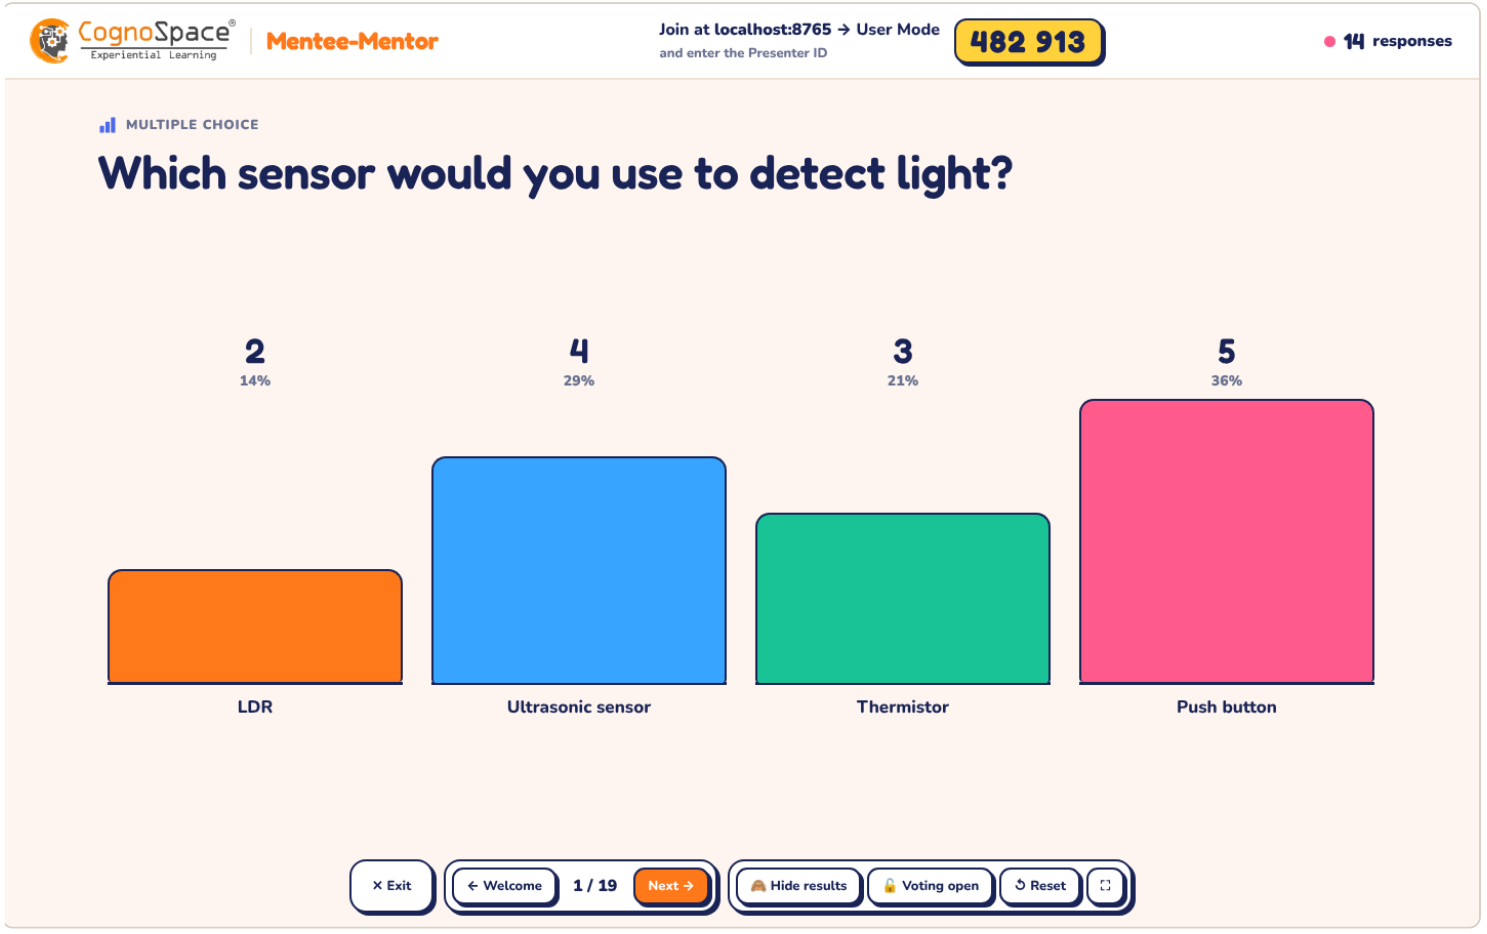

Multiple Choice

Mentees pick one option. The presenter screen shows live bars with counts and percentages.

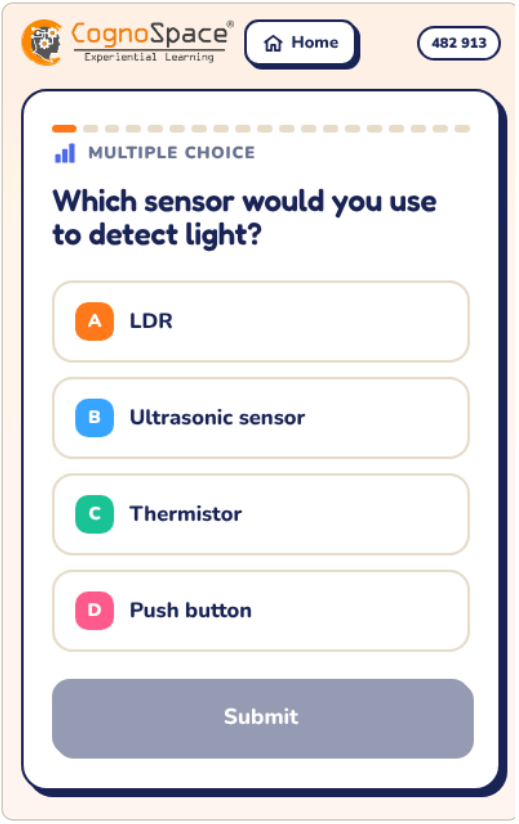

SAMPLE QUESTION

Question: Which sensor would you use to detect light?
Options: LDR, Ultrasonic sensor, Thermistor, Push button

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Presenter sees the live bar chart; mentee taps an option and submits.

FASTEST FINGERS FIRST

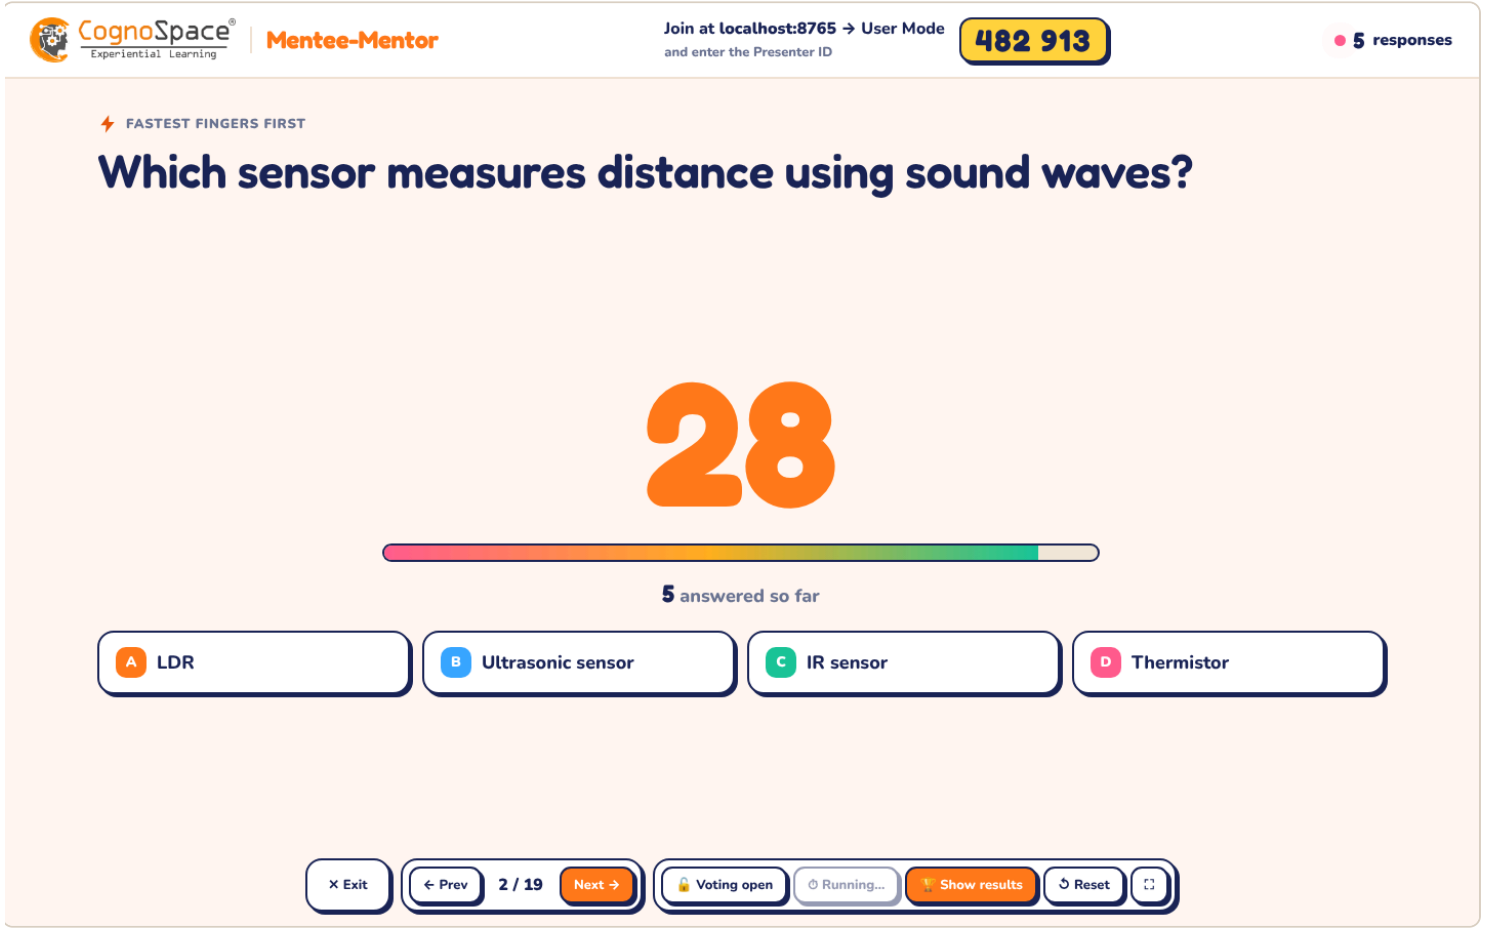

Fastest Fingers First: Multiple choice (MCQ) (1 of 2)

A timed race. Mentees tap one option; the first tap is their answer. After the timer, the leaderboard ranks everyone by speed and marks right and wrong.

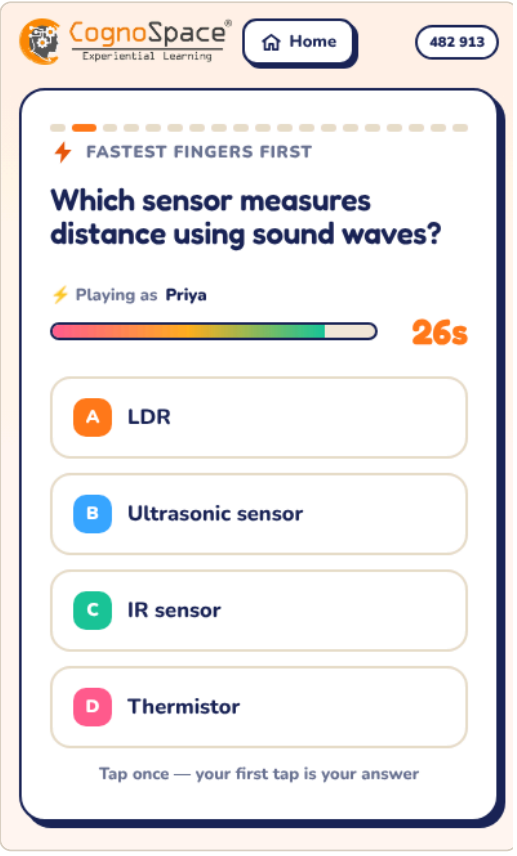

SAMPLE QUESTION

Question: Which sensor measures distance using sound waves?
Options: LDR, Ultrasonic sensor (correct), IR sensor, Thermistor
Time limit: 30 seconds

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

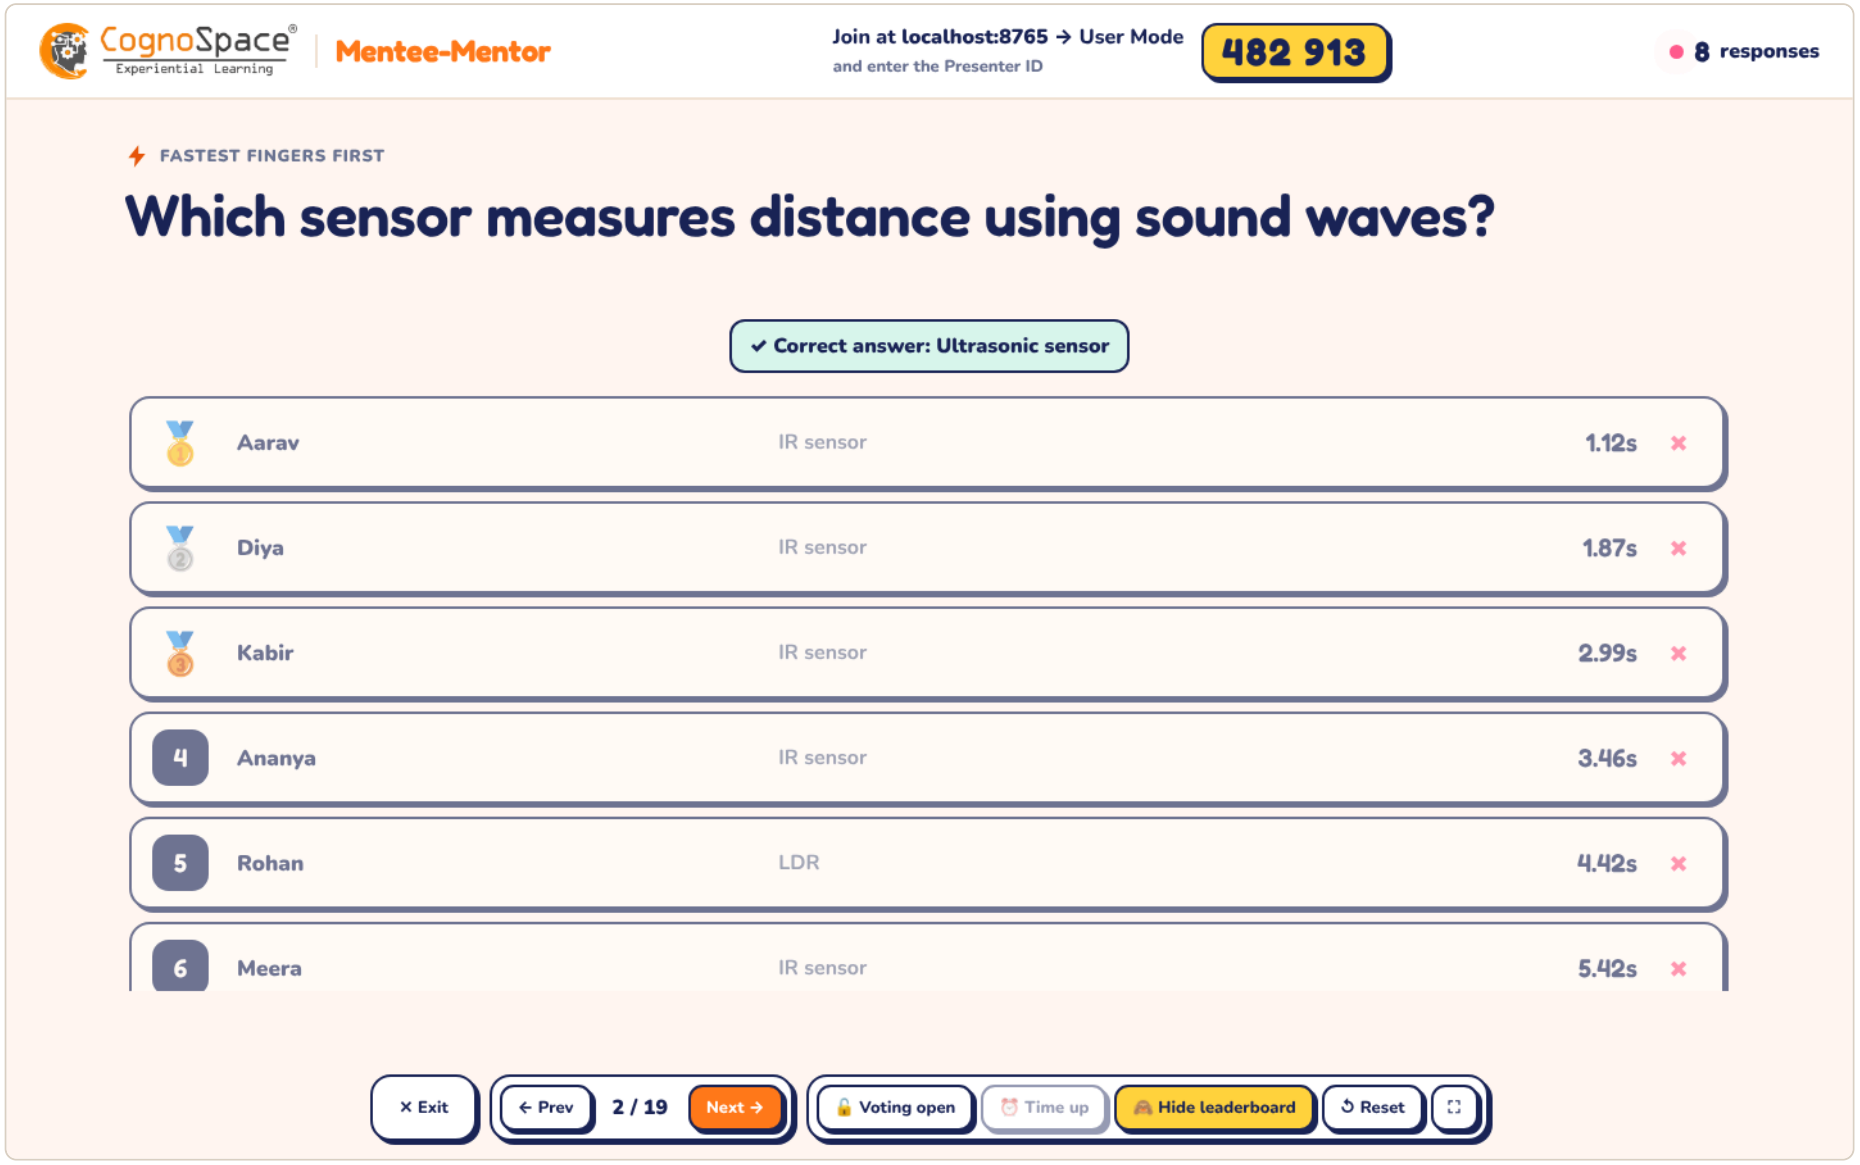

While the timer runs: big countdown on the presenter screen, answer buttons on the mentee phone.

FASTEST FINGERS FIRST

Fastest Fingers First: Multiple choice (MCQ) (2 of 2)

PRESENTER VIEW (ADMIN)

After "Show results": correct answer, ranked leaderboard with times and +5 points.

FASTEST FINGERS FIRST

Fastest Fingers First: Short answer (checked) (1 of 2)

Mentees type a short answer. It is checked against the accepted answers you list (comma separated), ignoring case.

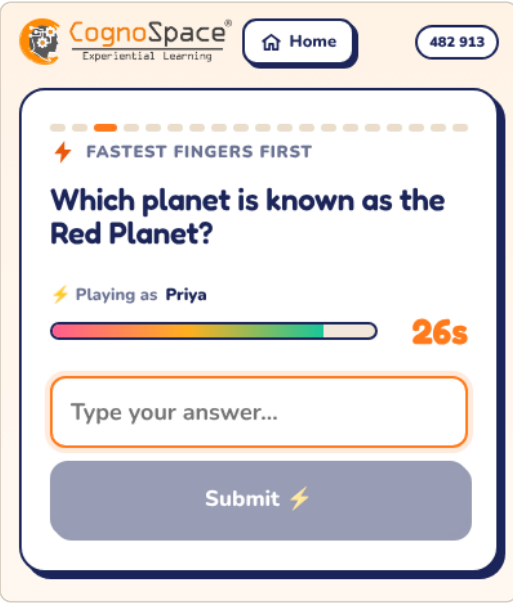

SAMPLE QUESTION

Question: Which planet is known as the Red Planet?
Accepted answers: Mars, planet mars
Time limit: 30 seconds

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Timer running; mentee types the answer and presses Submit.

FASTEST FINGERS FIRST

Fastest Fingers First: Short answer (checked) (2 of 2)

PRESENTER VIEW (ADMIN)

Leaderboard with each typed answer, time taken and ✓ / ✗.

FASTEST FINGERS FIRST

Fastest Fingers First: Arrange in order (words → sentence) (1 of 2)

Mentees tap shuffled words in the right order to build a sentence. You enter the words in the correct order; the app shuffles them.

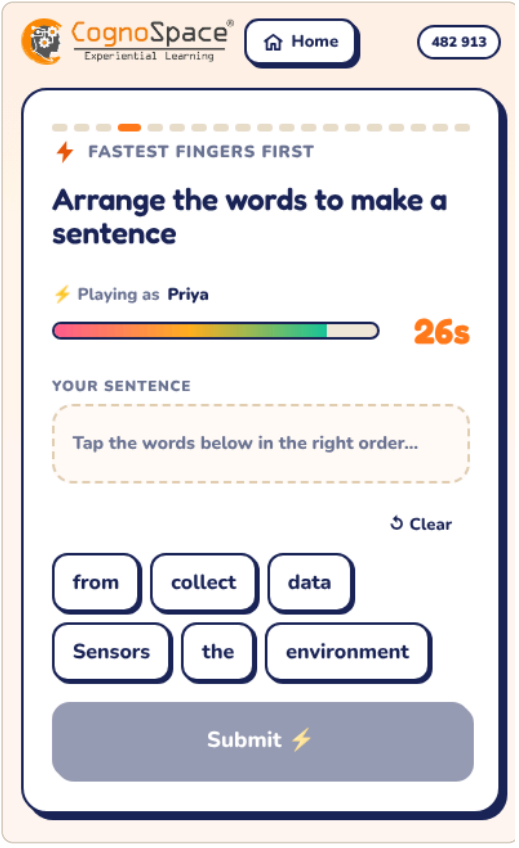

SAMPLE QUESTION

Question: Arrange the words to make a sentence
Words (correct order): Sensors · collect · data · from · the · environment
Time limit: 30 seconds

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Presenter shows the shuffled words; mentee taps them in order to build the sentence.

FASTEST FINGERS FIRST

Fastest Fingers First: Arrange in order (words → sentence) (2 of 2)

PRESENTER VIEW (ADMIN)

Leaderboard shows each mentee's sentence and whether it is correct.

FASTEST FINGERS FIRST

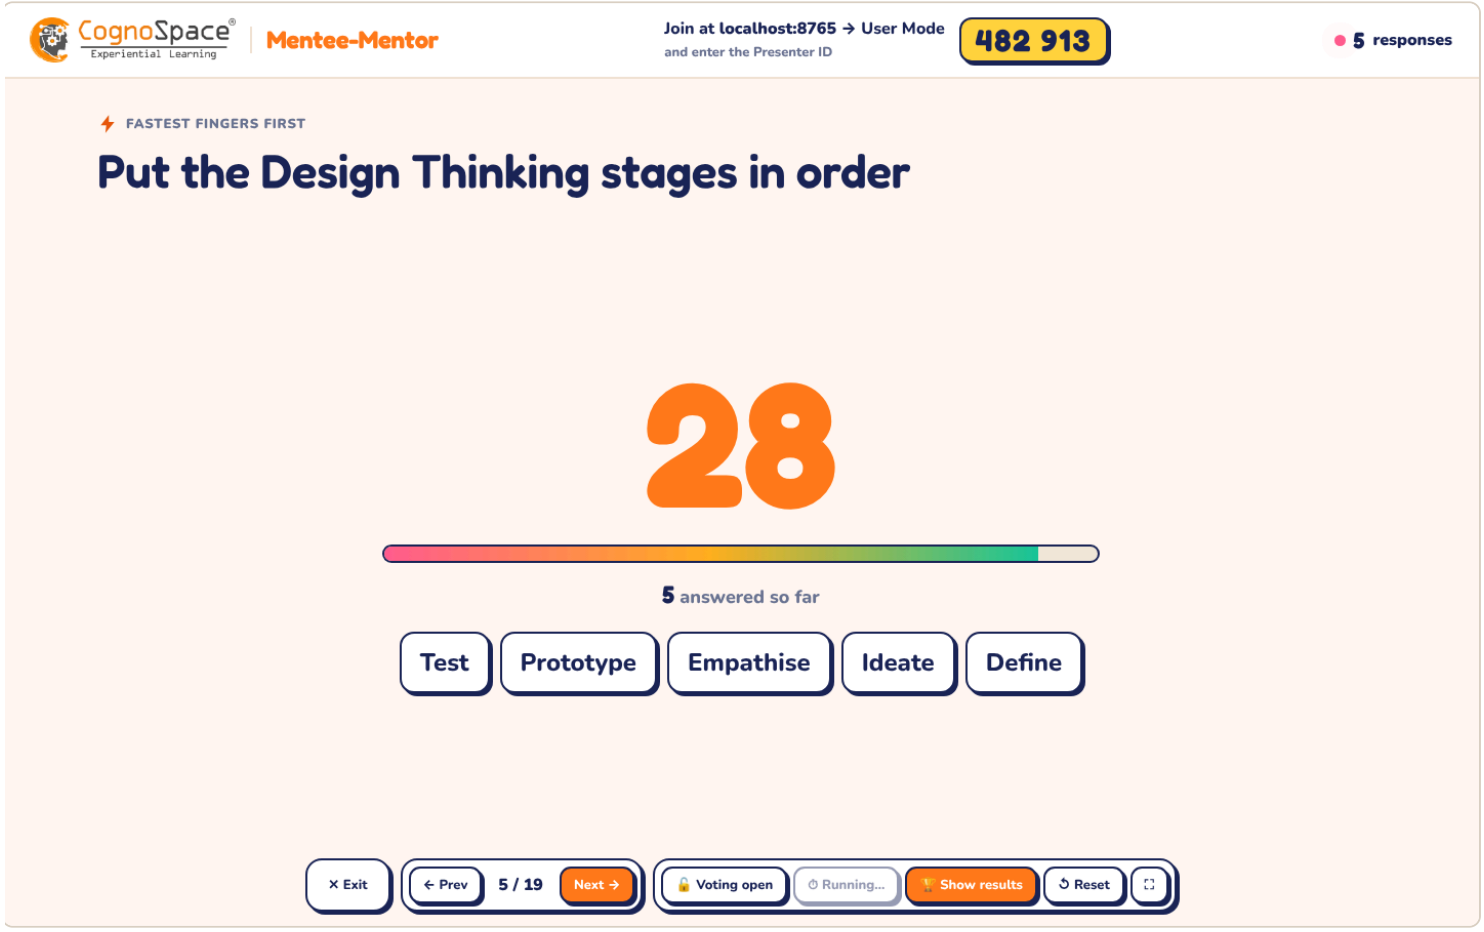

Fastest Fingers First: Arrange in order (steps → sequence) (1 of 2)

Same as arranging words, but the pieces are steps and the answer is shown as a sequence with arrows.

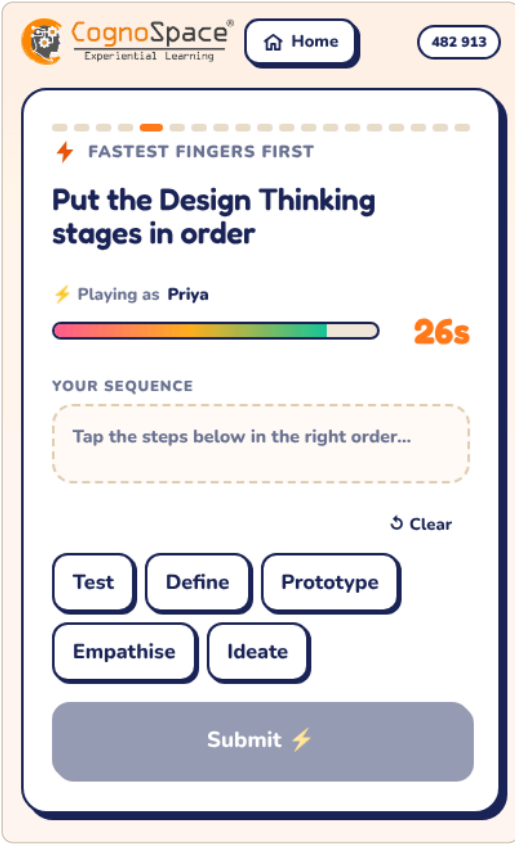

SAMPLE QUESTION

Question: Put the Design Thinking stages in order
Steps (correct order): Empathise → Define → Ideate → Prototype → Test
Time limit: 30 seconds

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

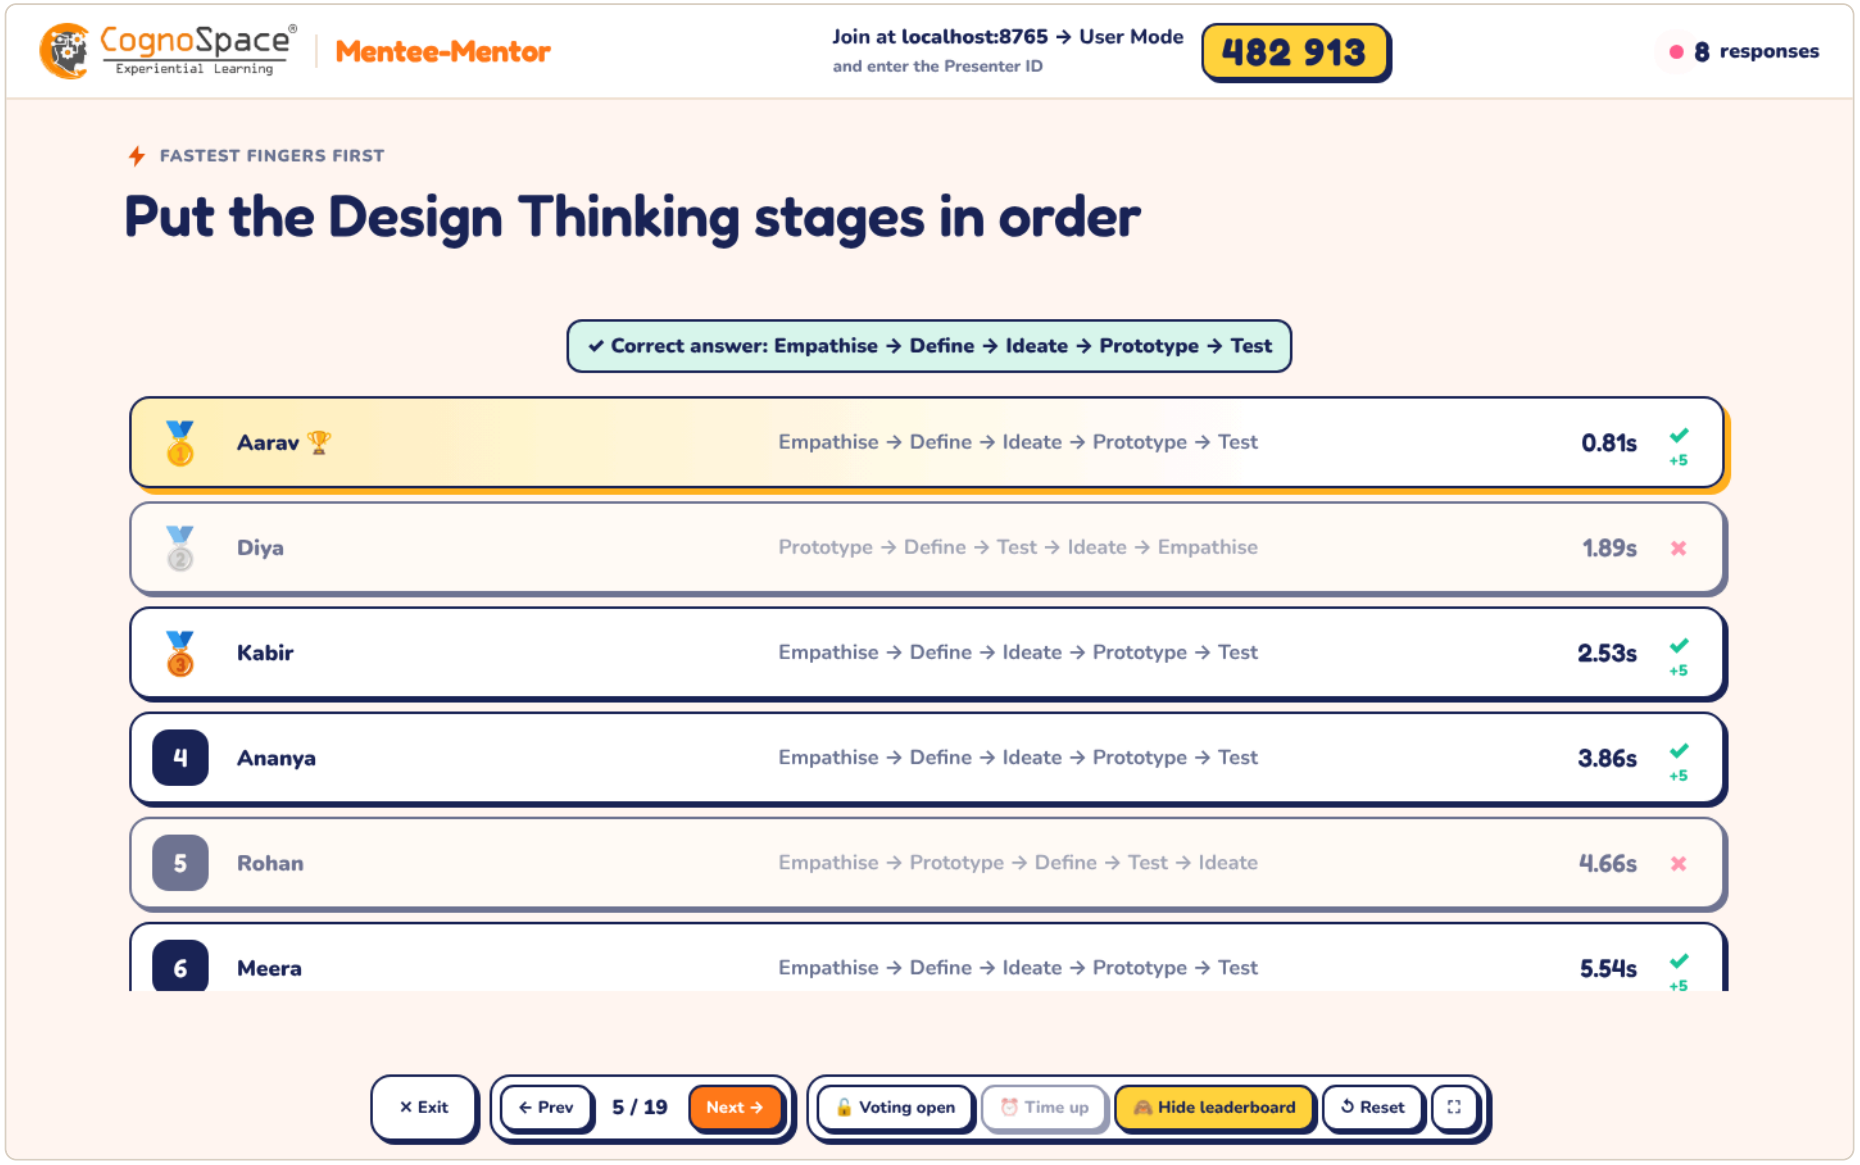

Shuffled steps on screen; mentee taps them in the right sequence.

FASTEST FINGERS FIRST

Fastest Fingers First: Arrange in order (steps → sequence) (2 of 2)

PRESENTER VIEW (ADMIN)

Leaderboard shows each sequence with ✓ / ✗.

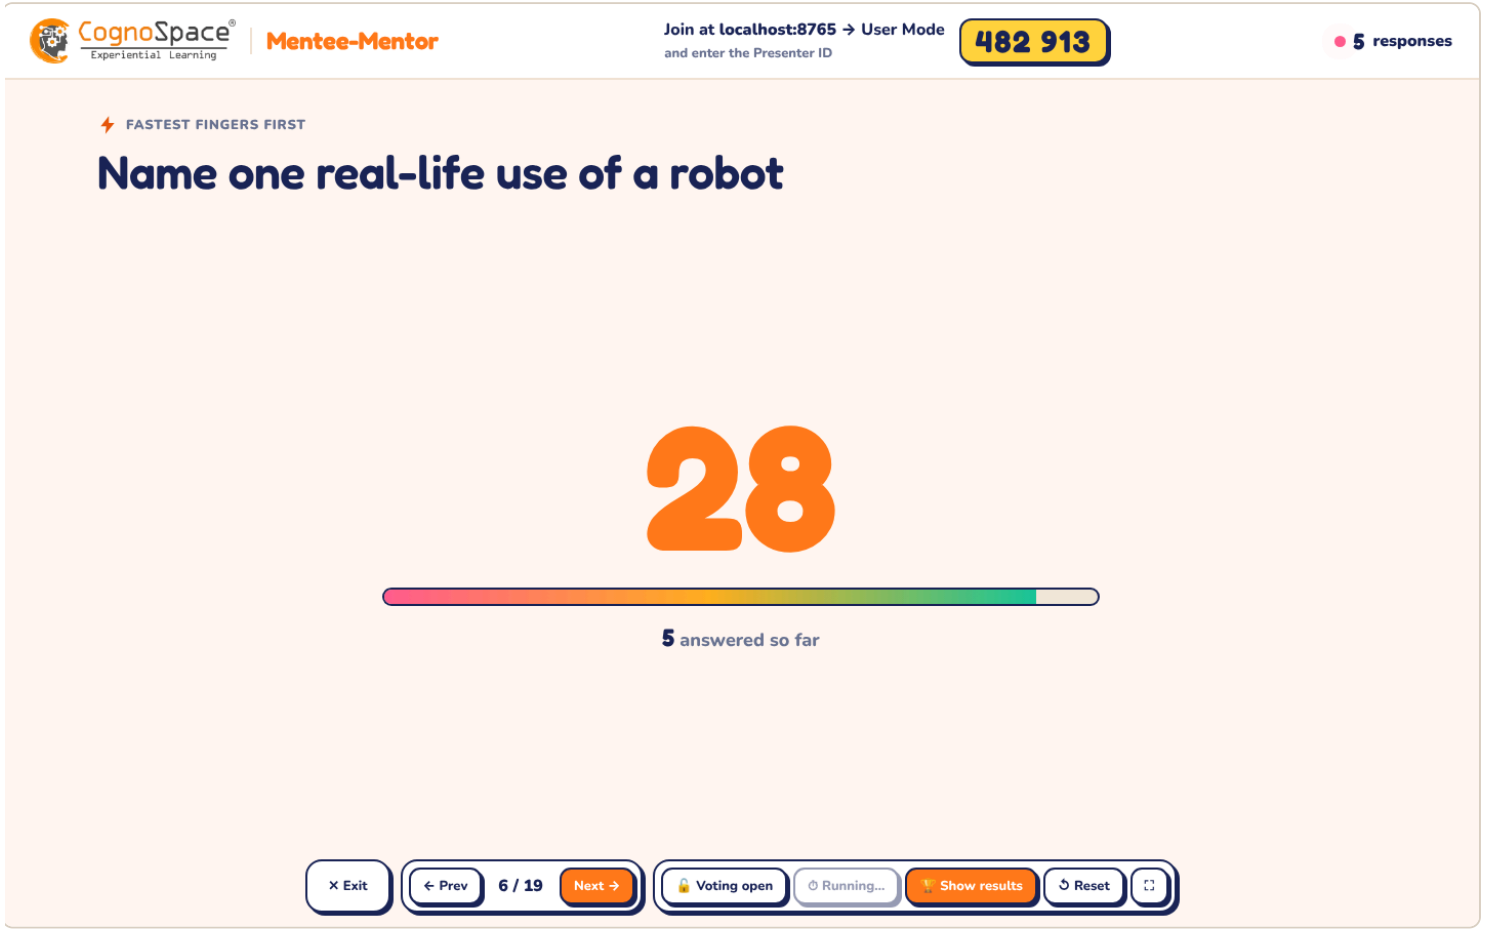

FASTEST FINGERS FIRST

Fastest Fingers First: Open ended (no checking) (1 of 2)

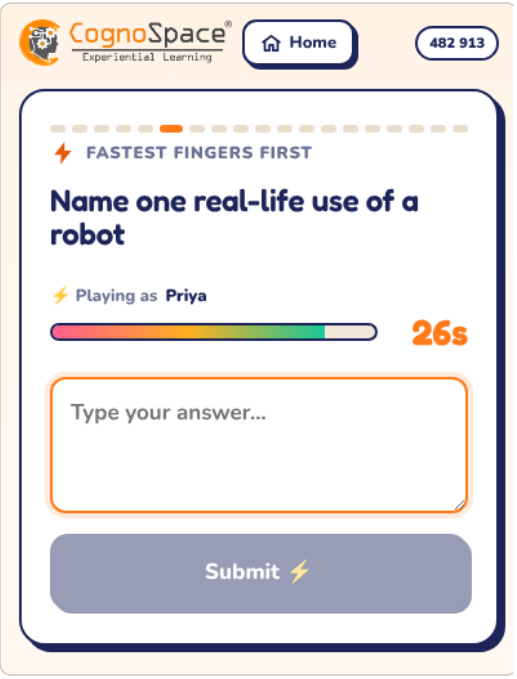

Mentees type any answer. Nothing is auto-checked; you see who answered, what they wrote and who was first.

SAMPLE QUESTION
Question: Name one real-life use of a robot
Time limit: 30 seconds

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Timer running; mentee types a free answer.

FASTEST FINGERS FIRST

Fastest Fingers First: Open ended (no checking) (2 of 2)

PRESENTER VIEW (ADMIN)

Answers ranked by speed; no right/wrong marks because nothing is checked.

FASTEST FINGERS FIRST

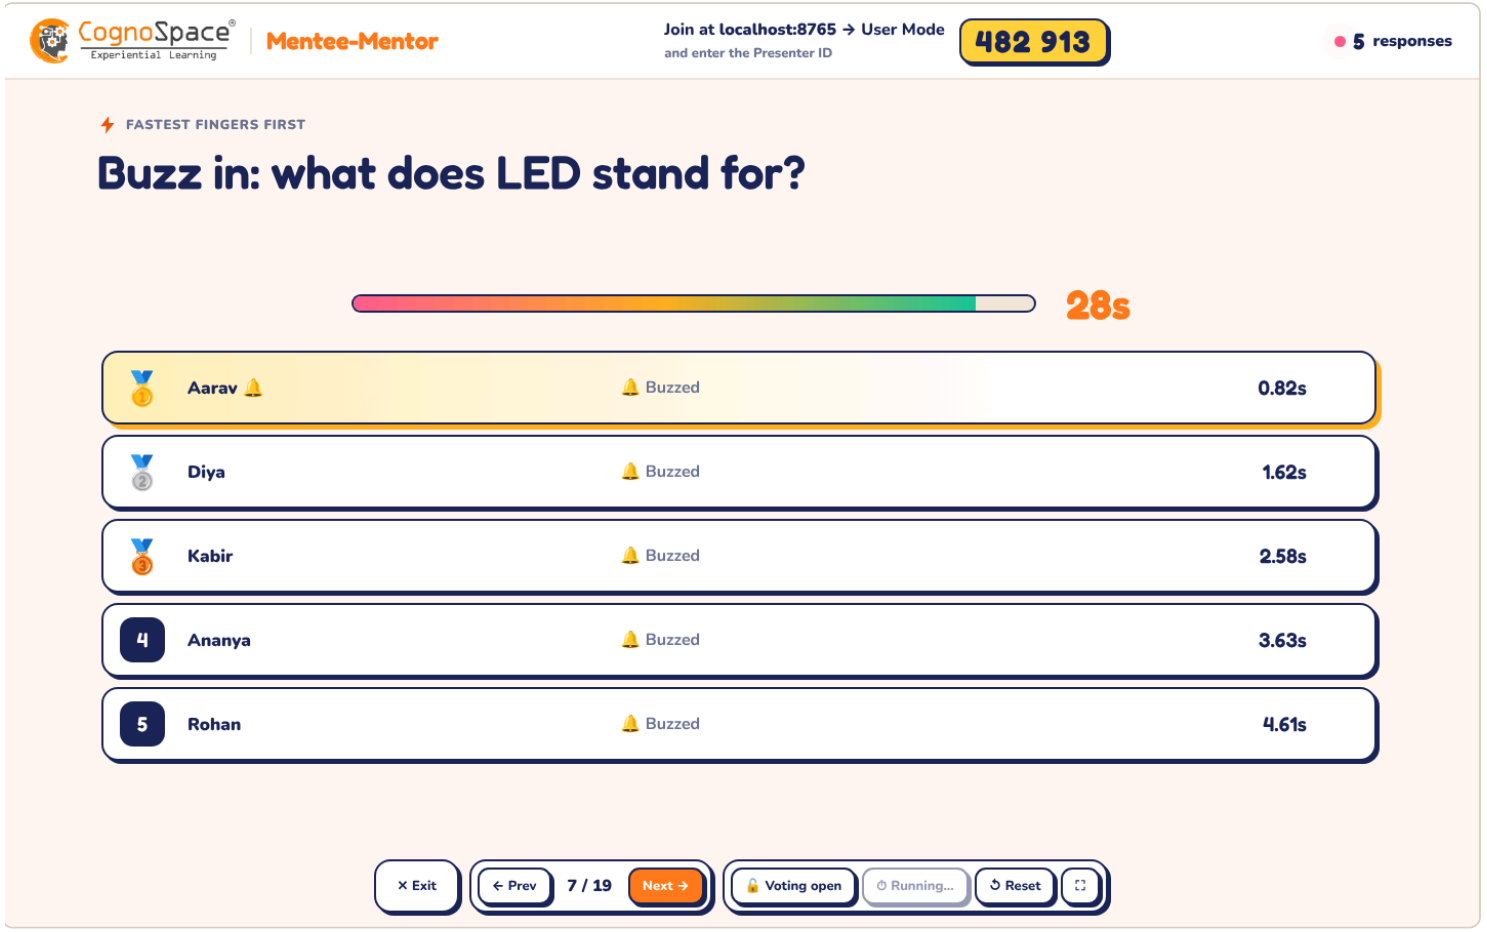

Fastest Fingers First: Buzzer

Mentees hit a big buzzer. The presenter screen lists who buzzed first, live, so you can ask the first person to answer aloud. There is no separate results step.

SAMPLE QUESTION

Question: Buzz in: what does LED stand for?
Time limit: 30 seconds

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Presenter sees the live buzz order; mentee sees the big red buzzer.

QUESTION TYPES

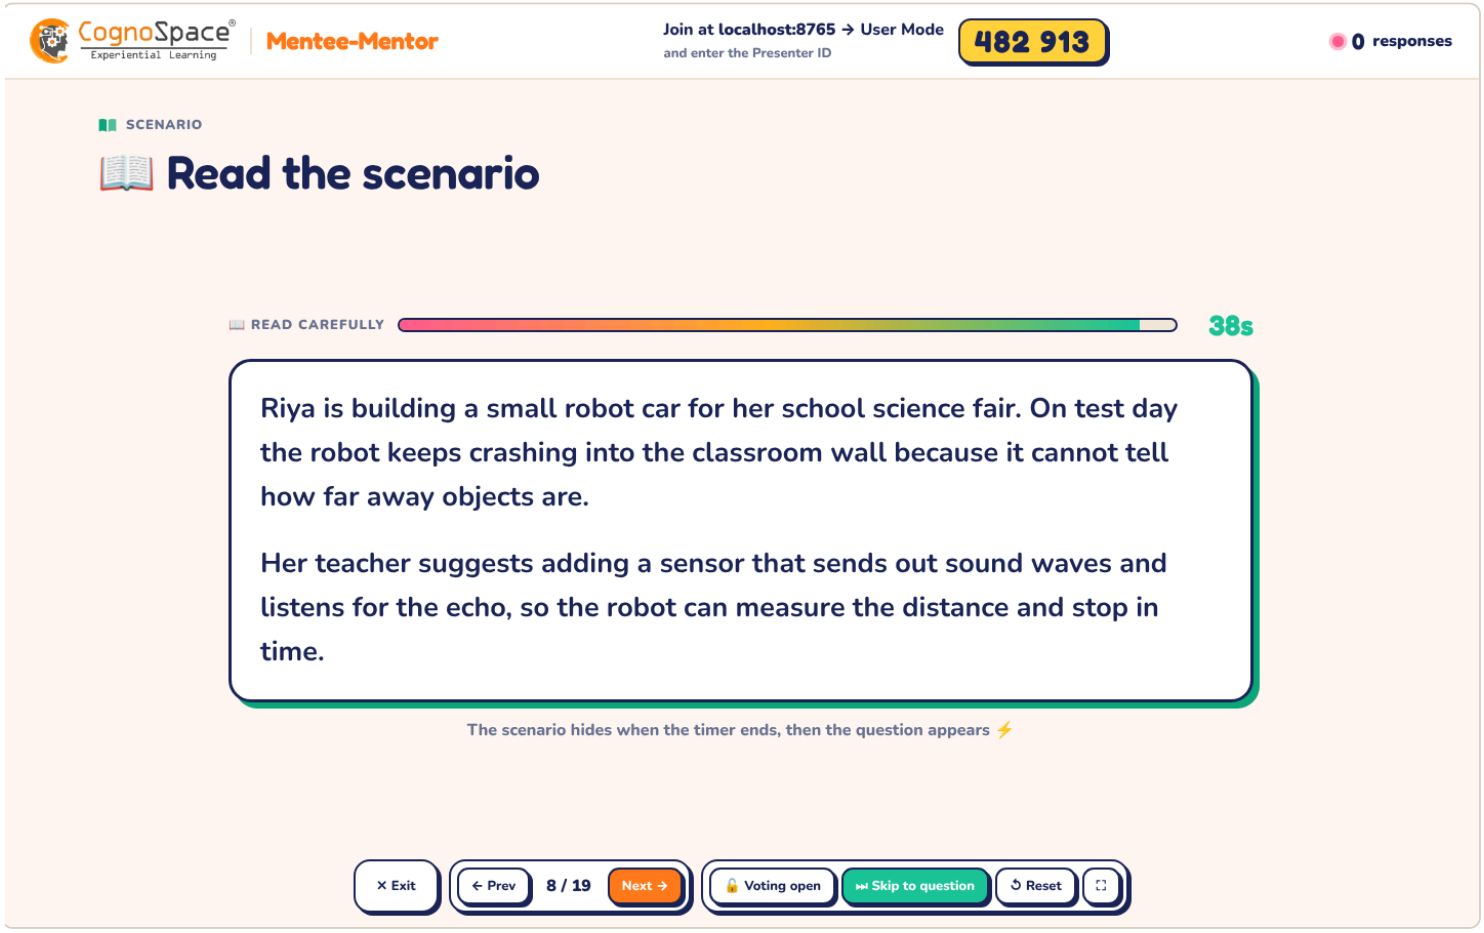

Scenario (1 of 3)

A paragraph is shown for a set reading time, then hidden, and a Fastest Fingers First question about it follows (MCQ, short answer, arrange, open or buzzer).

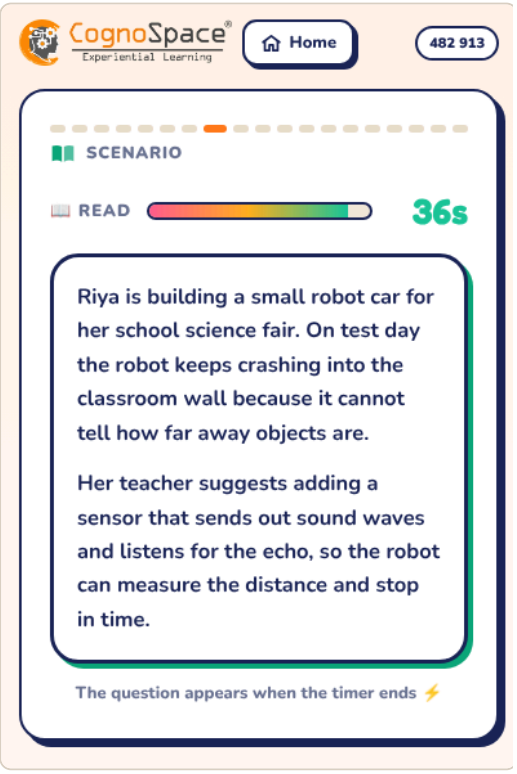

SAMPLE QUESTION

Scenario: Riya's robot car keeps crashing into the wall... (2 short paragraphs)
Reading time: 40 seconds
Question: Which sensor should Riya add so the robot stops before hitting the wall?
Options: LDR, Ultrasonic sensor (correct), Temperature sensor, Buzzer · 30 seconds

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

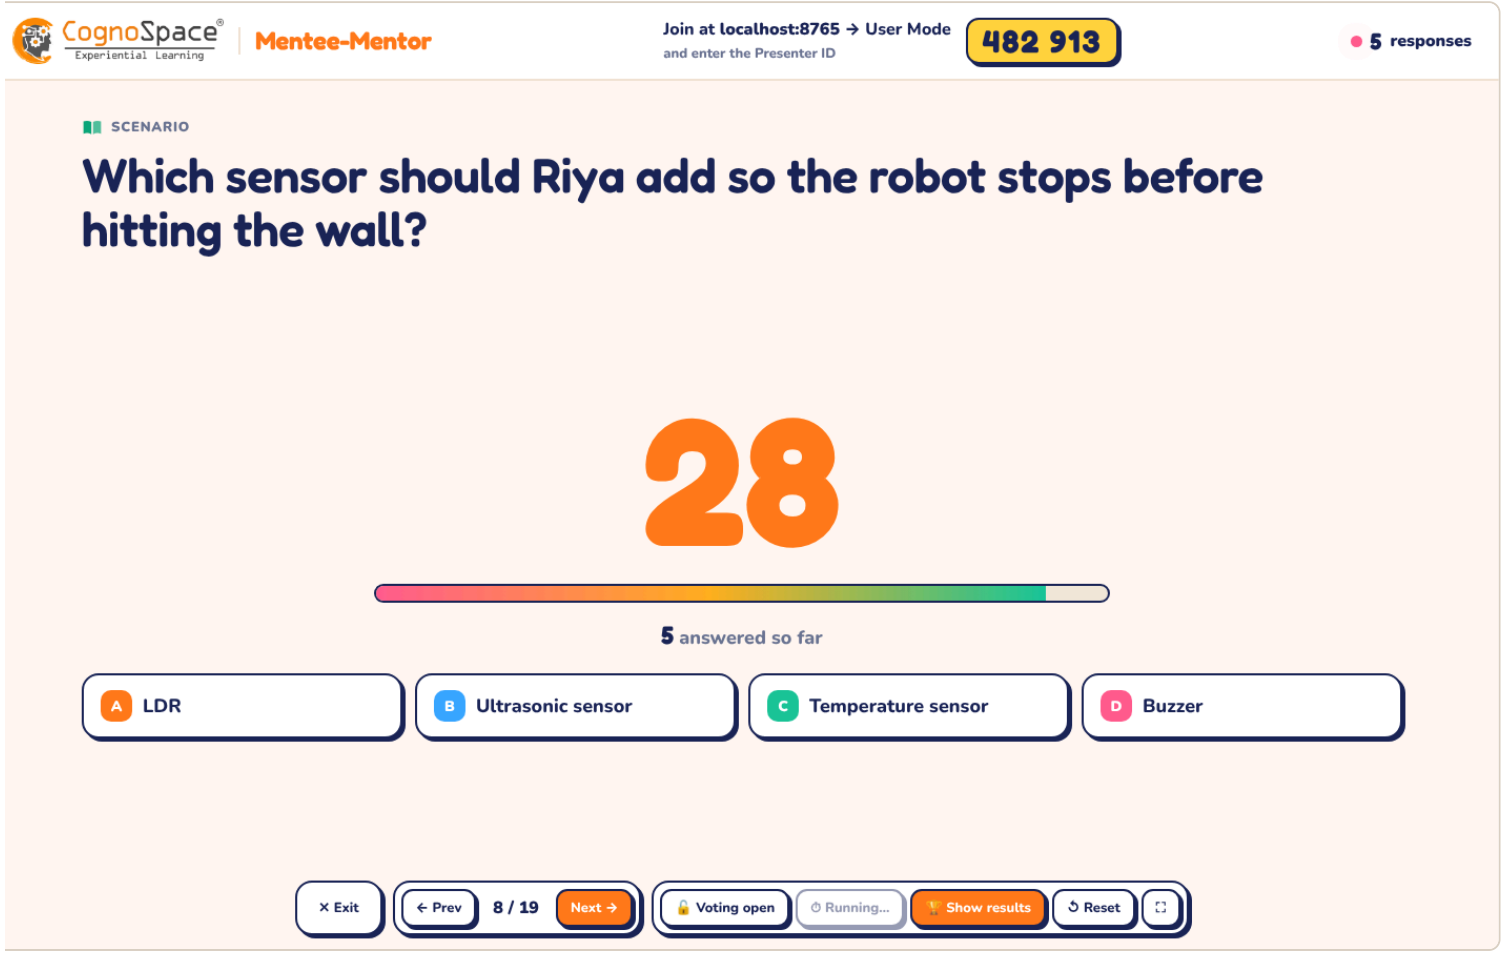

Step 1, reading: the paragraph with a reading timer on both screens.

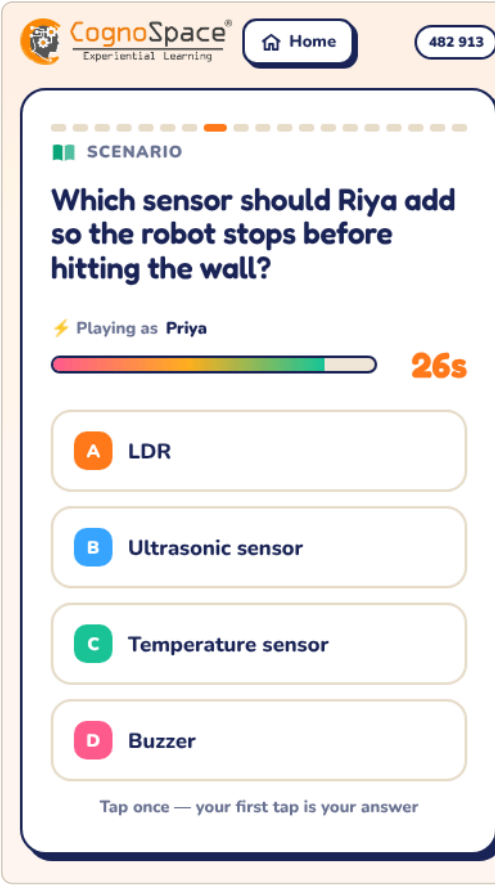

QUESTION TYPES

Scenario (2 of 3)

PRESENTER VIEW (ADMIN)

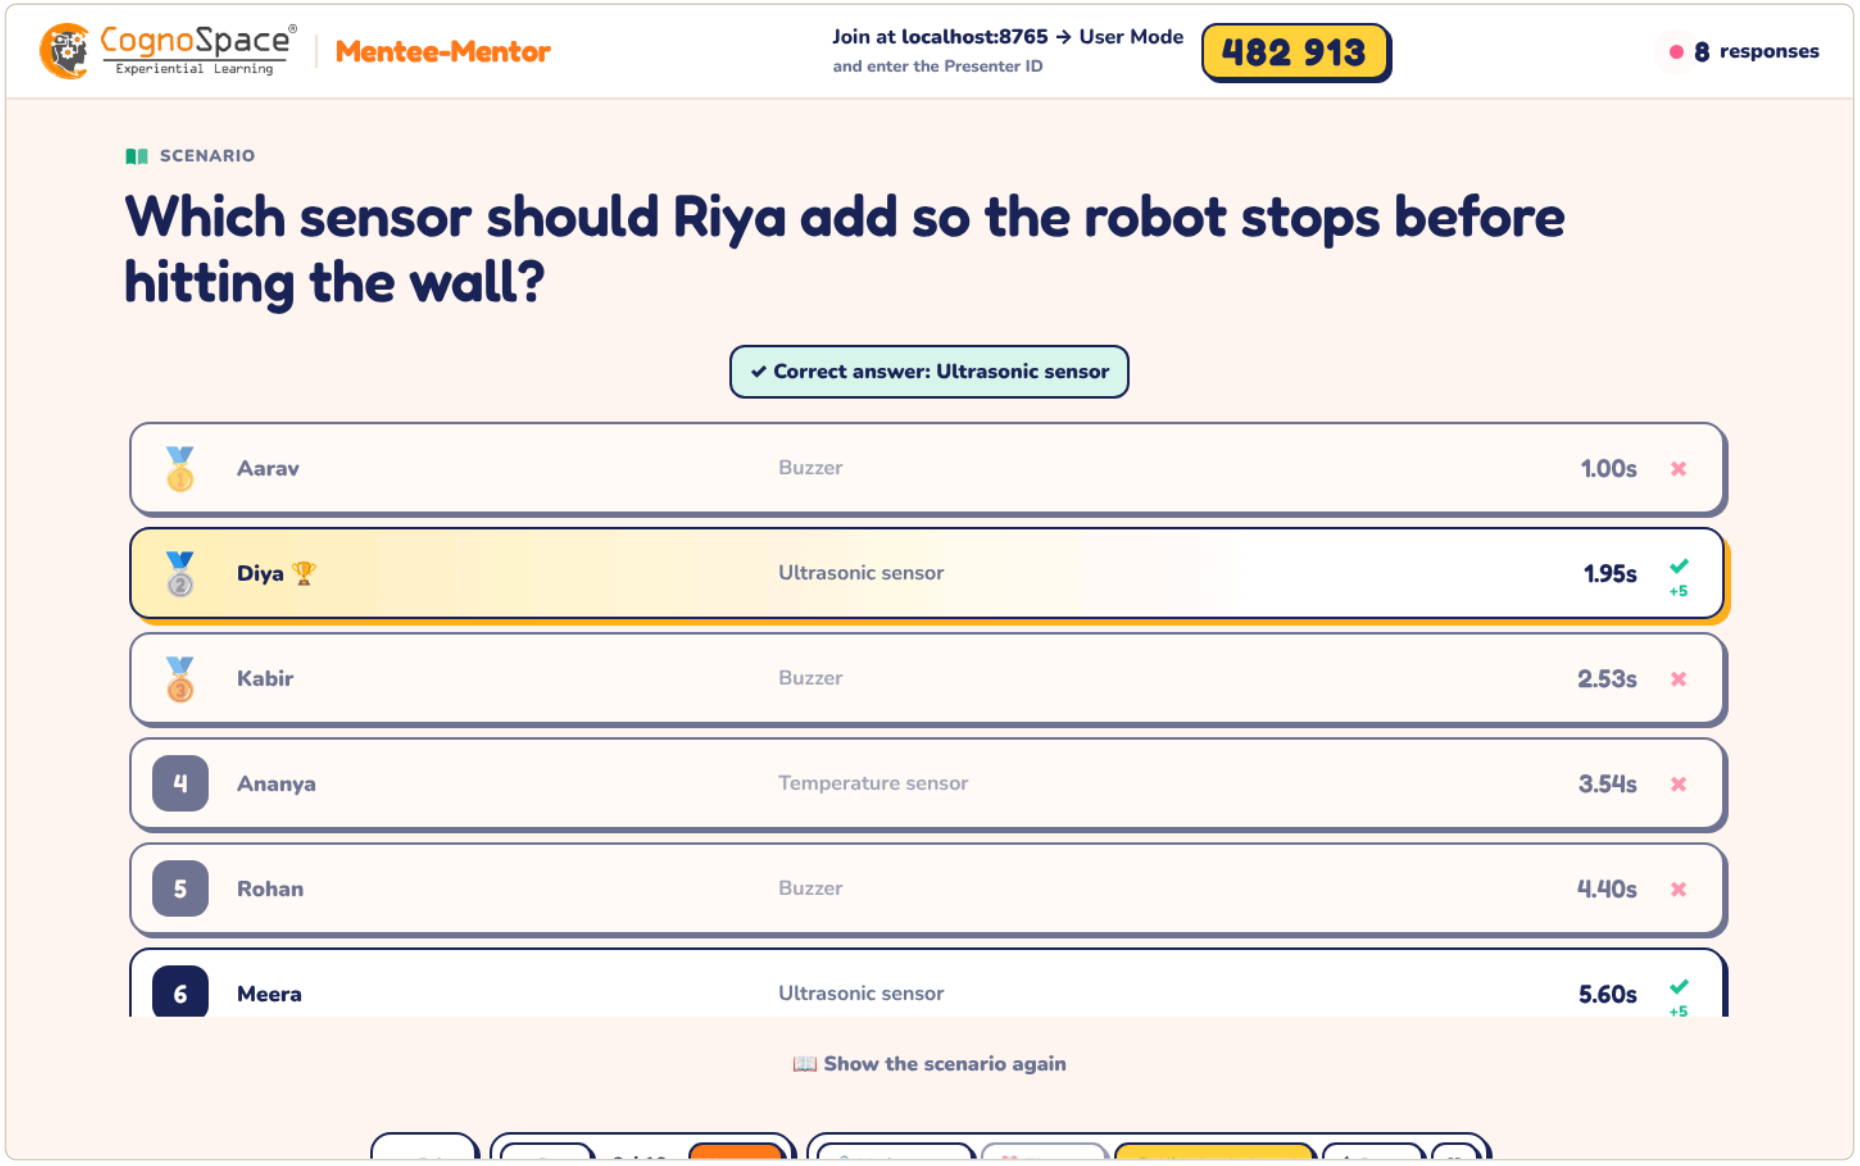

MENTEE VIEW (USER)

Step 2, answering: the paragraph is hidden and the question timer runs.

Scenario (3 of 3)

PRESENTER VIEW (ADMIN)

Step 3, results: leaderboard, with “Show the scenario again” below it.

QUESTION TYPES

Word Cloud

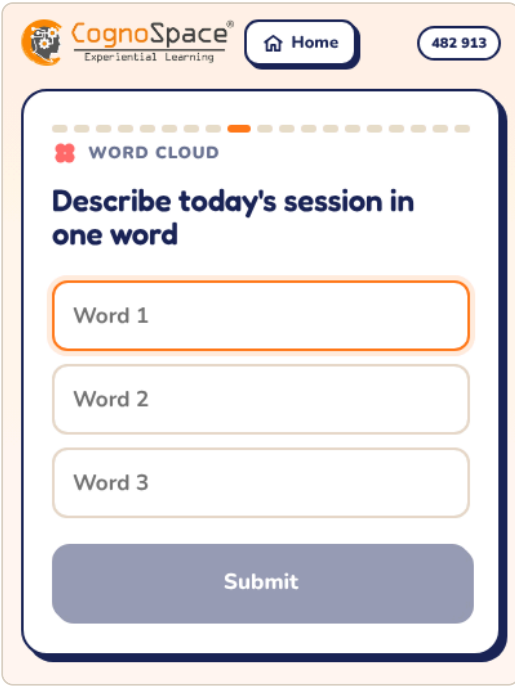

Mentees send up to three short words. Popular words grow bigger on the presenter screen.

SAMPLE QUESTION
Question: Describe today's session in one word
Max words per mentee: 3

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Word cloud on screen; mentee types up to 3 words.

QUESTION TYPES

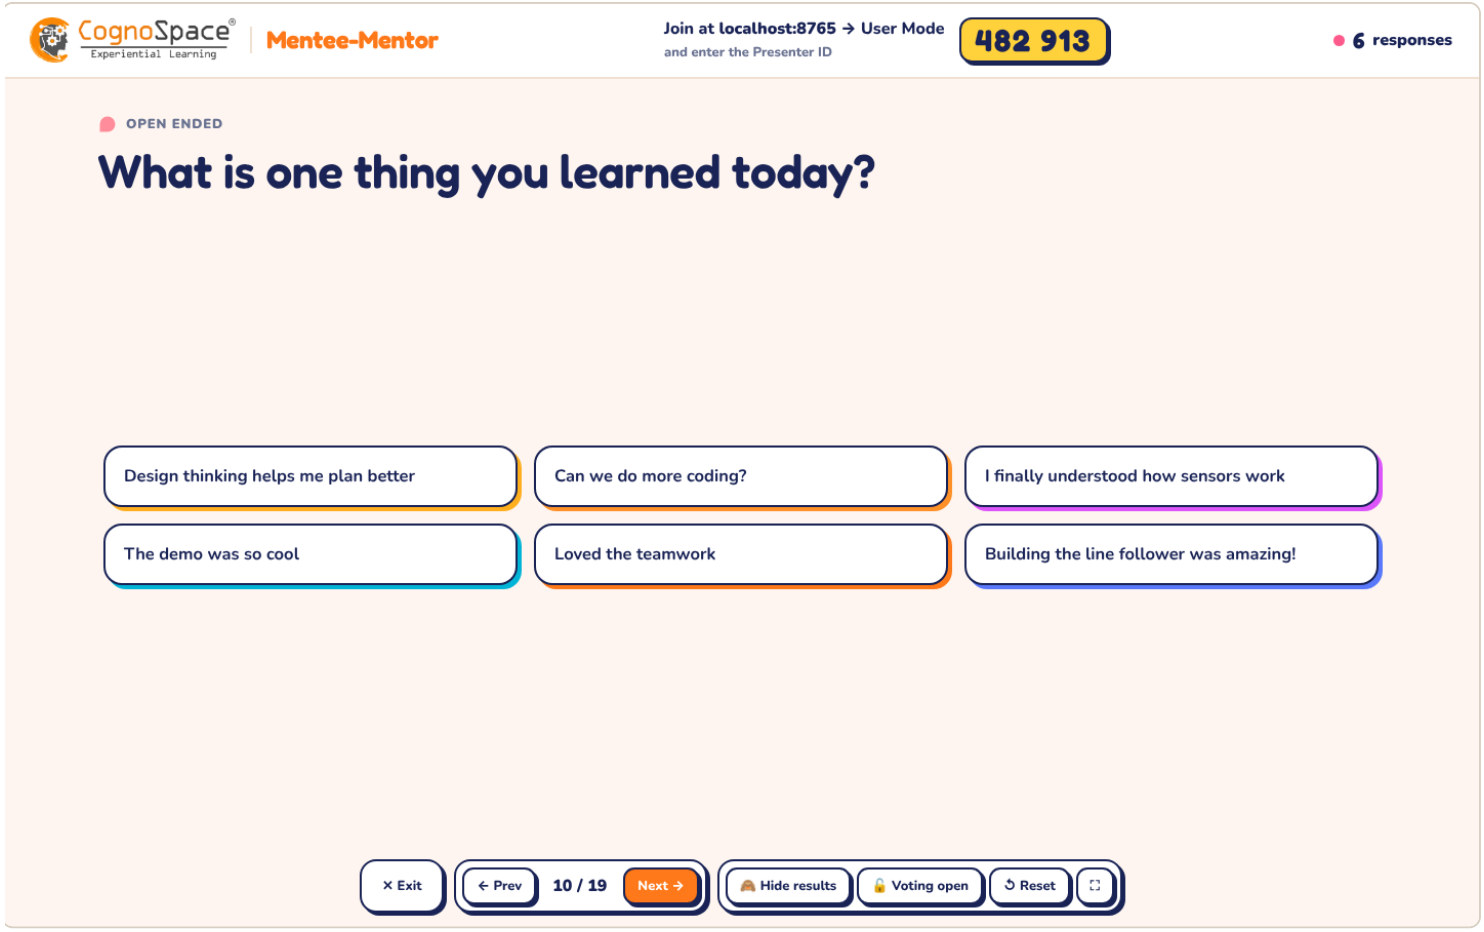

Open Ended

Free-text answers appear as colourful cards on the presenter screen.

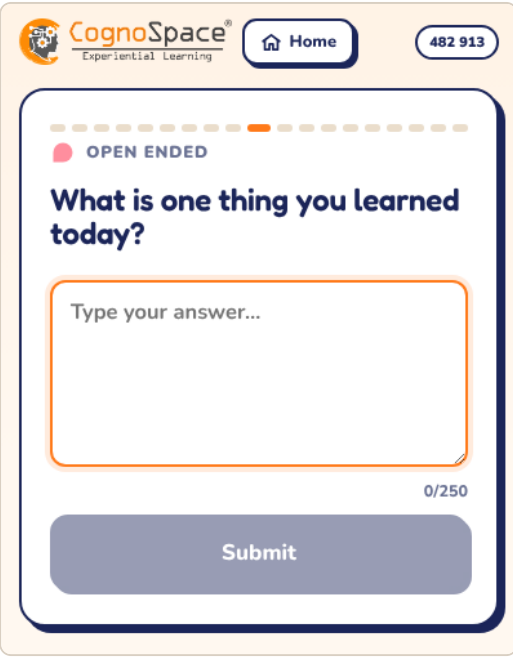

SAMPLE QUESTION

Question: What is one thing you learned today?

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Answer cards on screen; mentee types up to 250 characters.

QUESTION TYPES

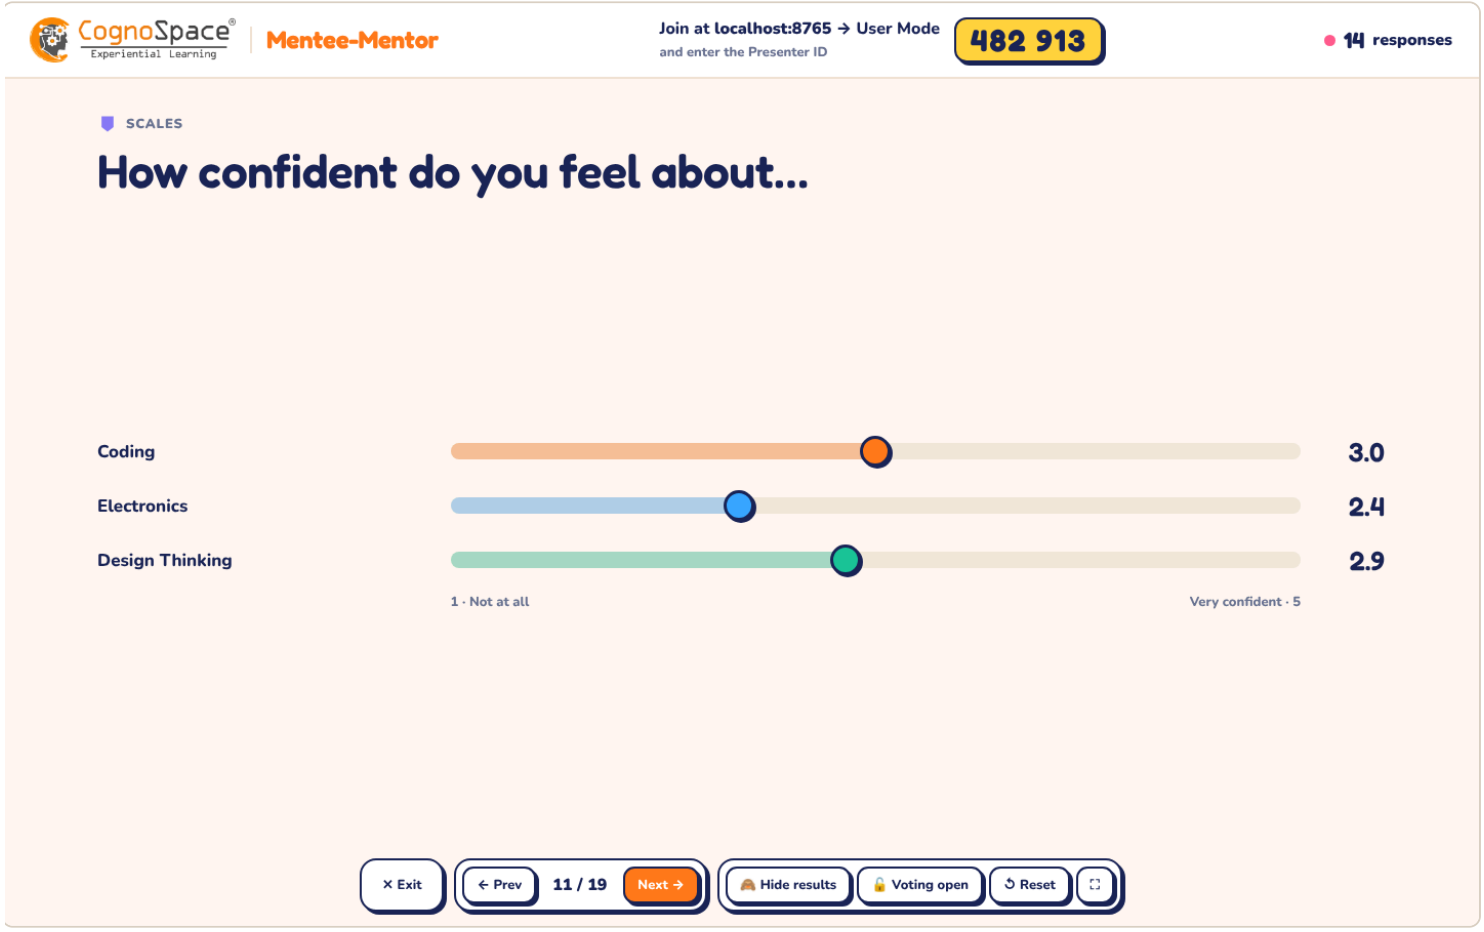

Scales

Mentees rate each statement on a slider. The presenter screen shows the average for each one.

SAMPLE QUESTION

Question: How confident do you feel about...
Statements: Coding, Electronics, Design Thinking
Scale: 1 (Not at all) to 5 (Very confident)

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Averages on screen; a slider per statement on the phone.

QUESTION TYPES

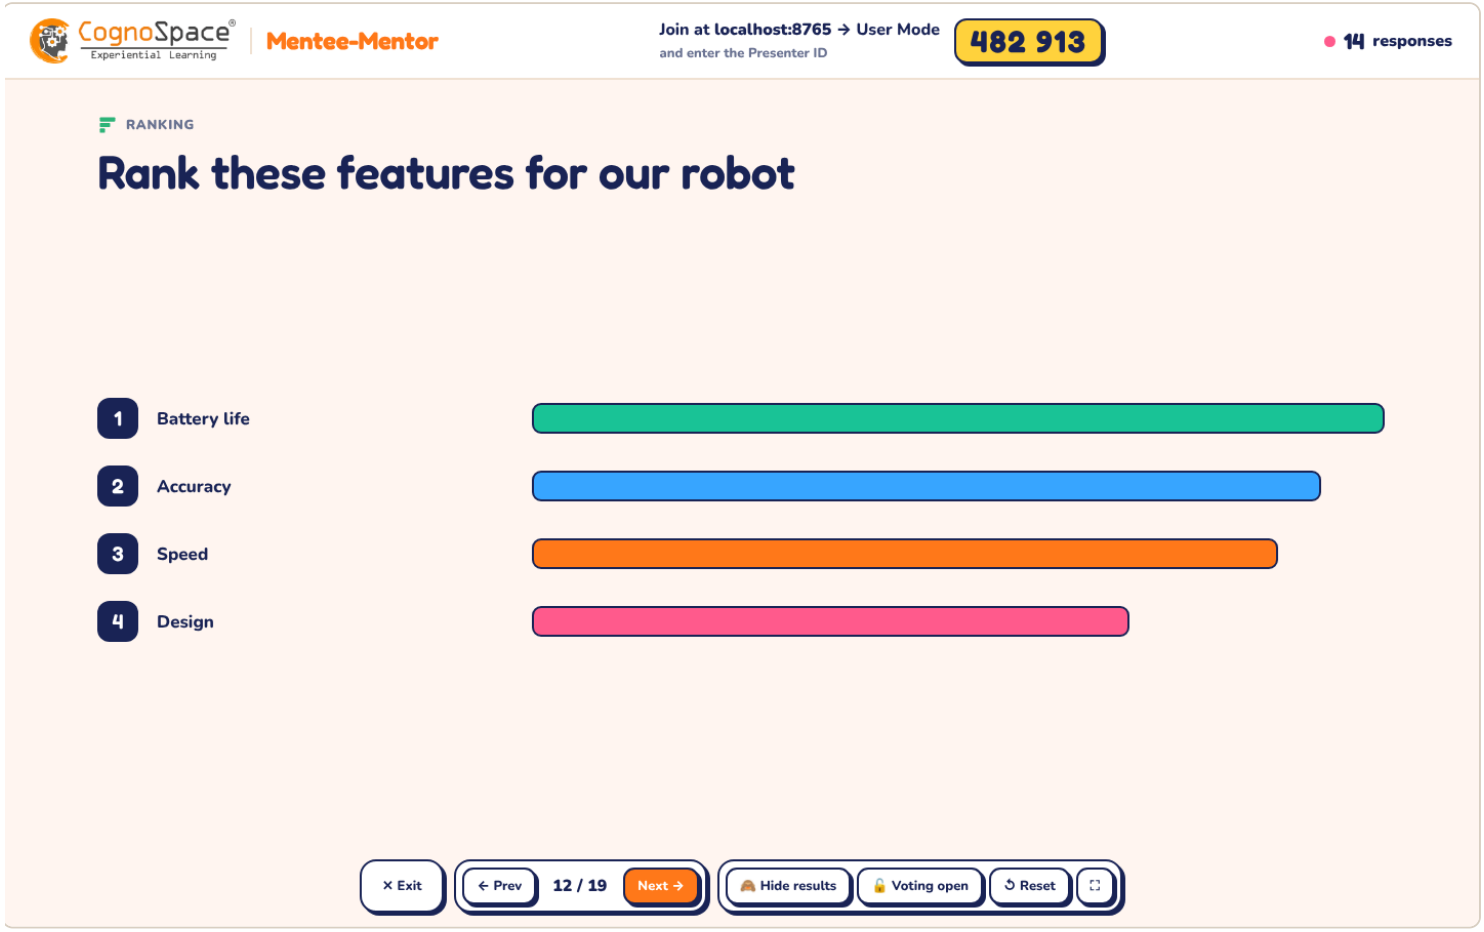

Ranking

Mentees put items in order with the arrows. The group ranking re-sorts live.

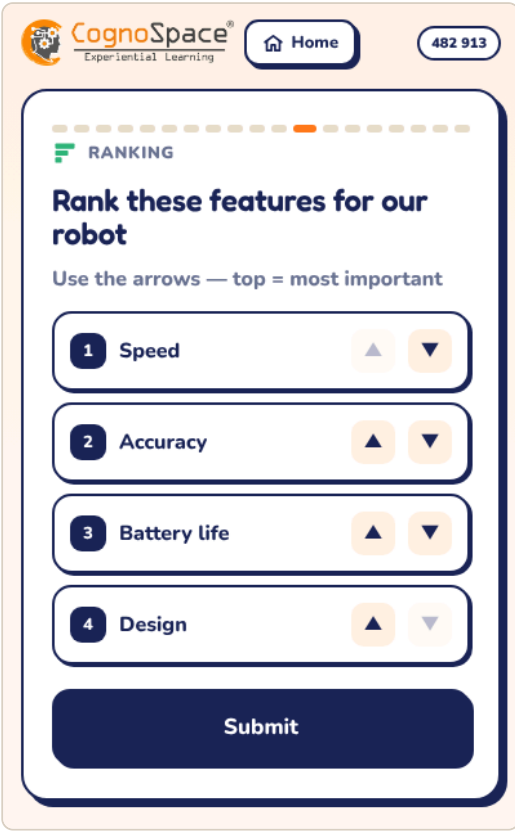

SAMPLE QUESTION

Question: Rank these features for our robot
Items: Speed, Accuracy, Battery life, Design

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Group ranking on screen; mentee reorders with ▲ ▼.

QUESTION TYPES

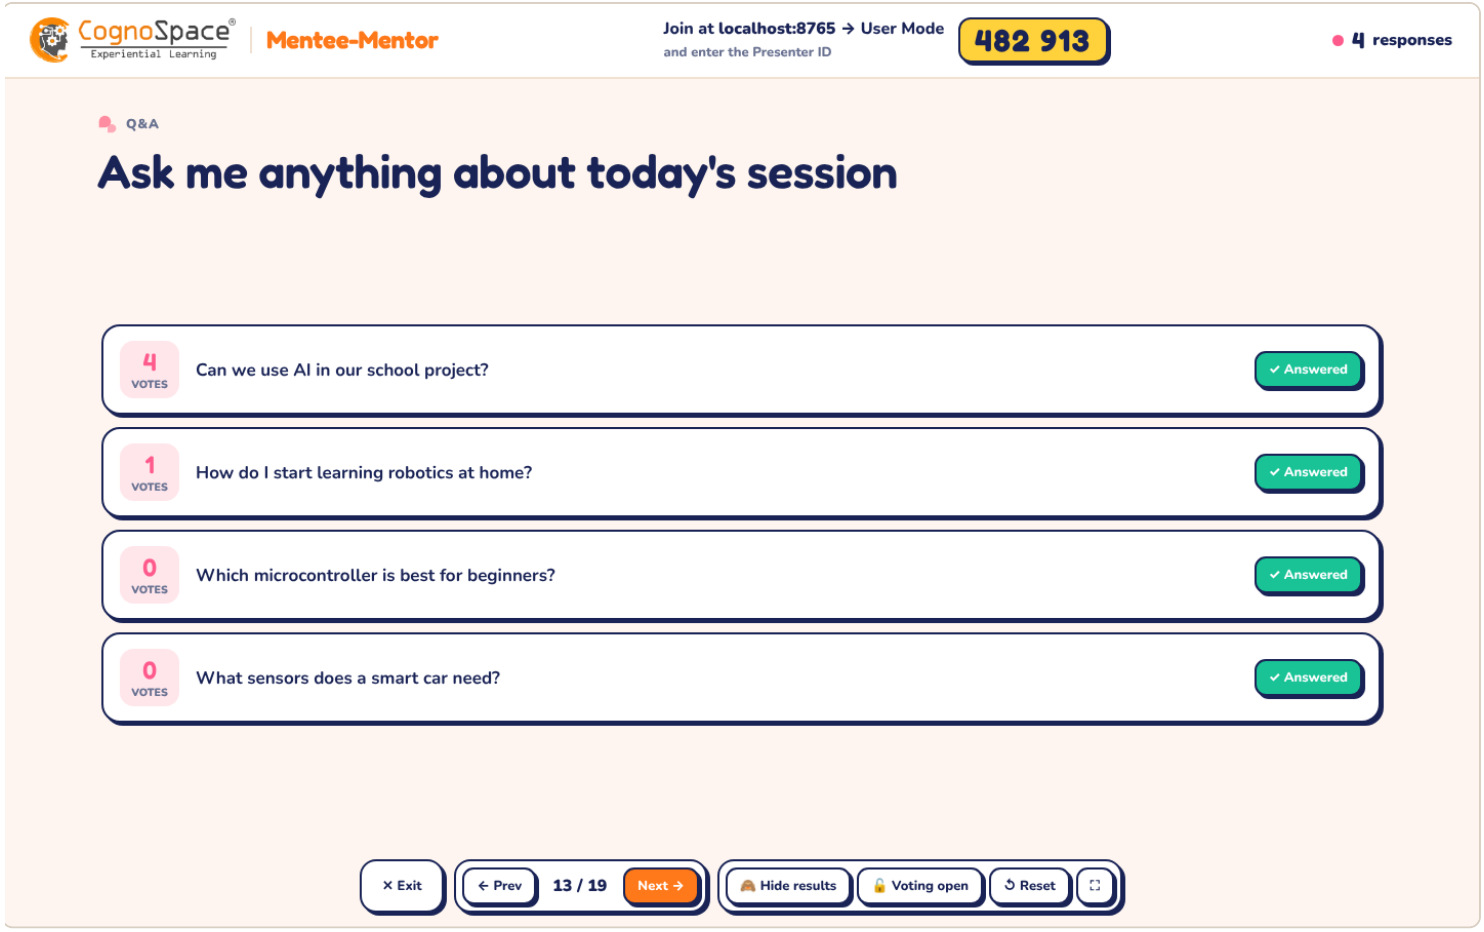

Q&A

Mentees ask questions anonymously and upvote others, so the best questions rise to the top. You can mark them answered.

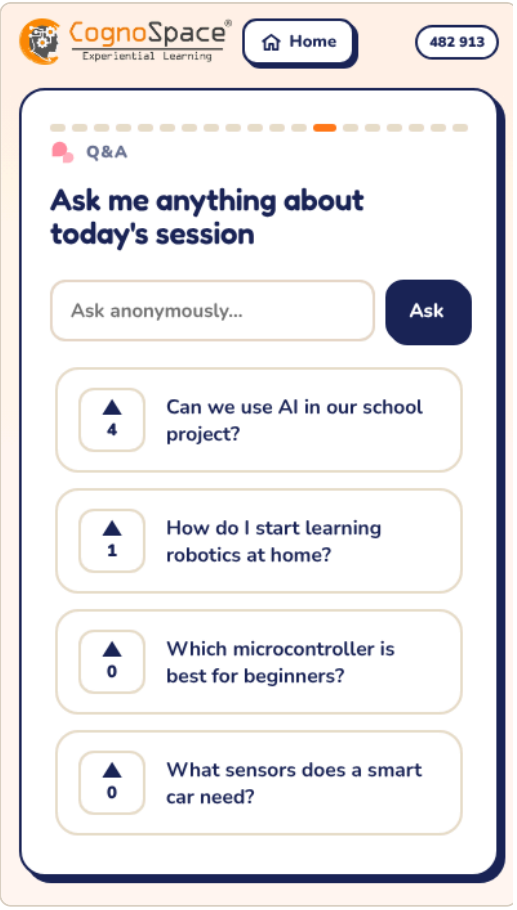

SAMPLE QUESTION

Prompt: Ask me anything about today's session

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Questions sorted by votes on screen; mentee can ask and upvote.

QUESTION TYPES

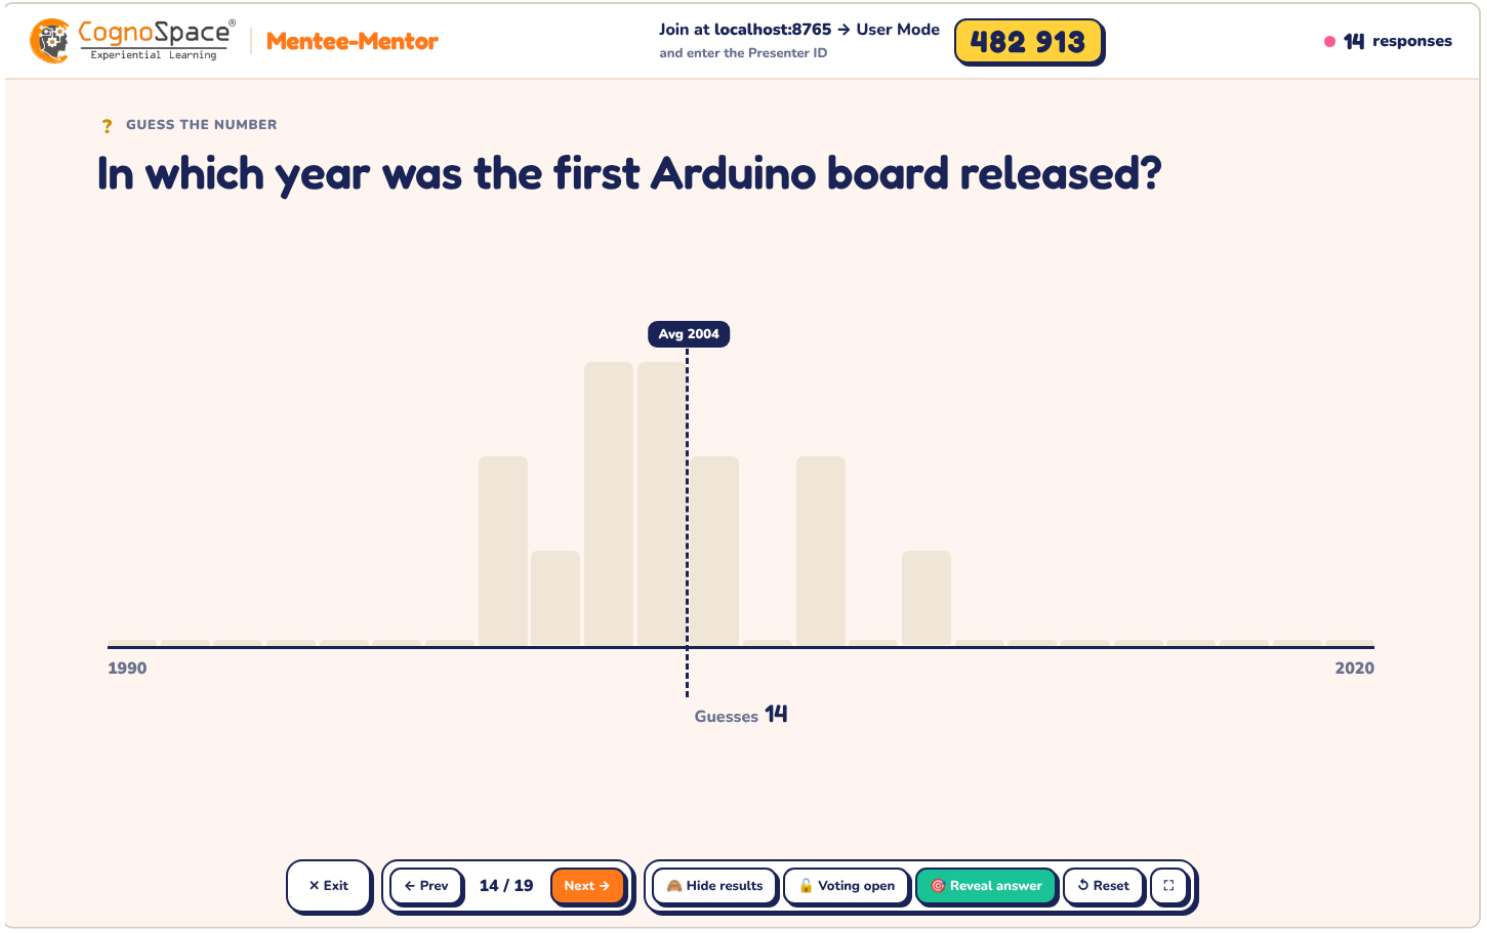

Guess the Number

Everyone guesses a number in a range, then you reveal the correct answer and how close the room got.

SAMPLE QUESTION

Question: In which year was the first Arduino board released?
Range: 1990 to 2020 · Correct: 2005

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Spread of guesses on screen; mentee picks a number with the slider or − / +.

QUESTION TYPES

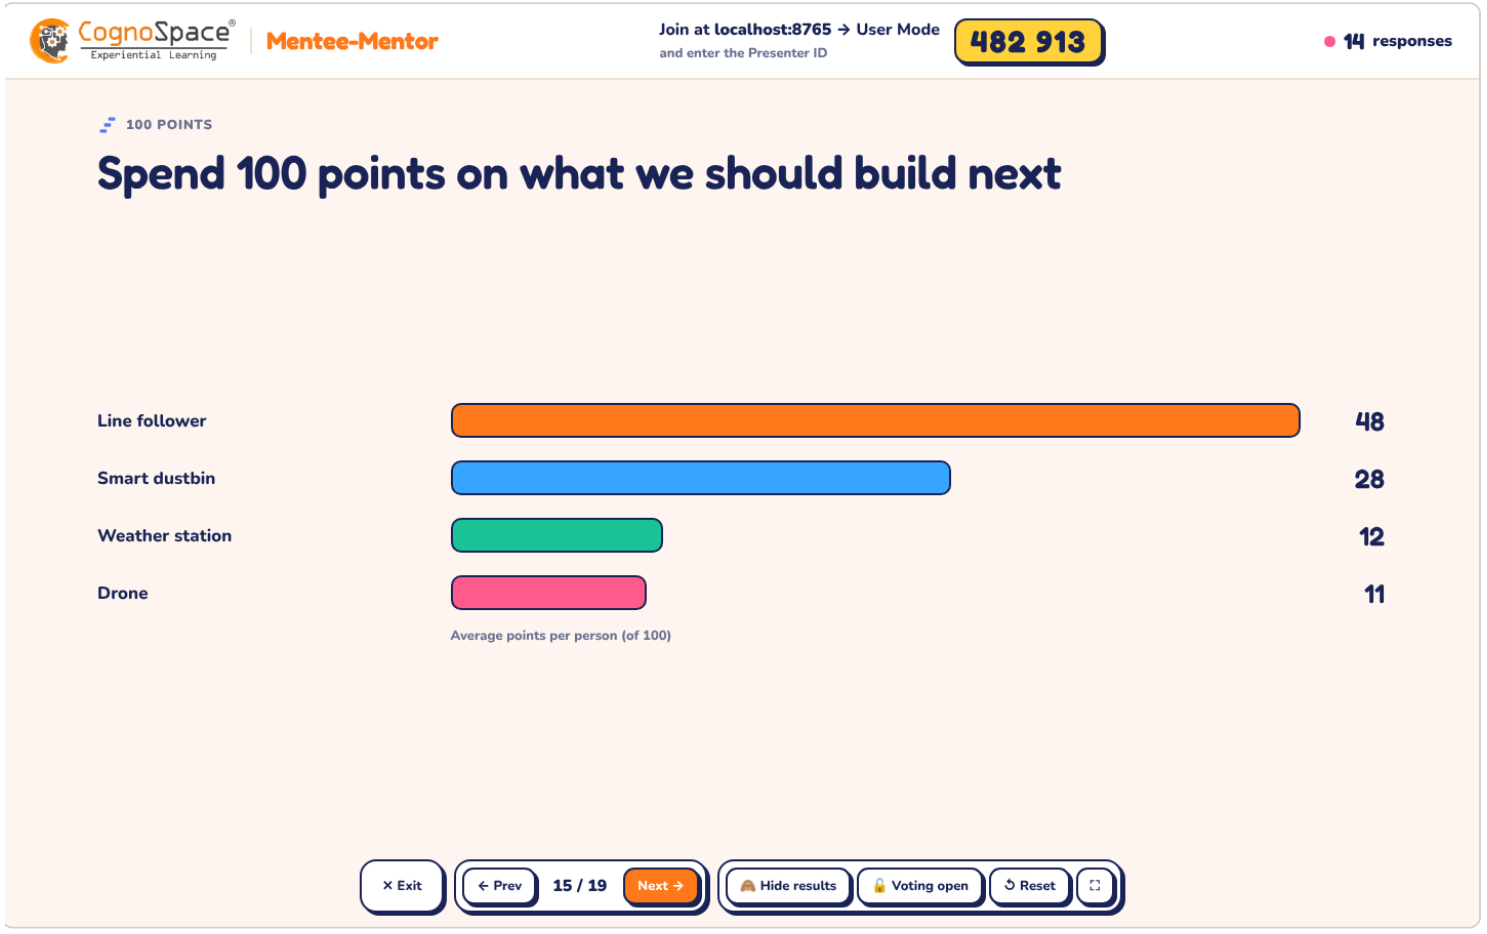

100 Points

Mentees spread a budget of 100 points across the options to show what matters most.

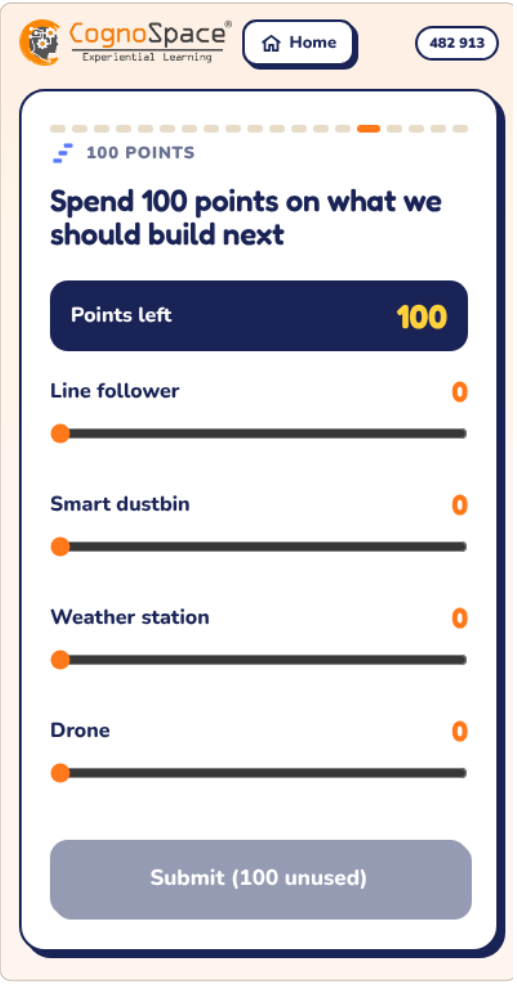

SAMPLE QUESTION

Question: Spend 100 points on what we should build next
Items: Line follower, Smart dustbin, Weather station, Drone

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Average points per item on screen; sliders with "Points left" on the phone.

QUESTION TYPES

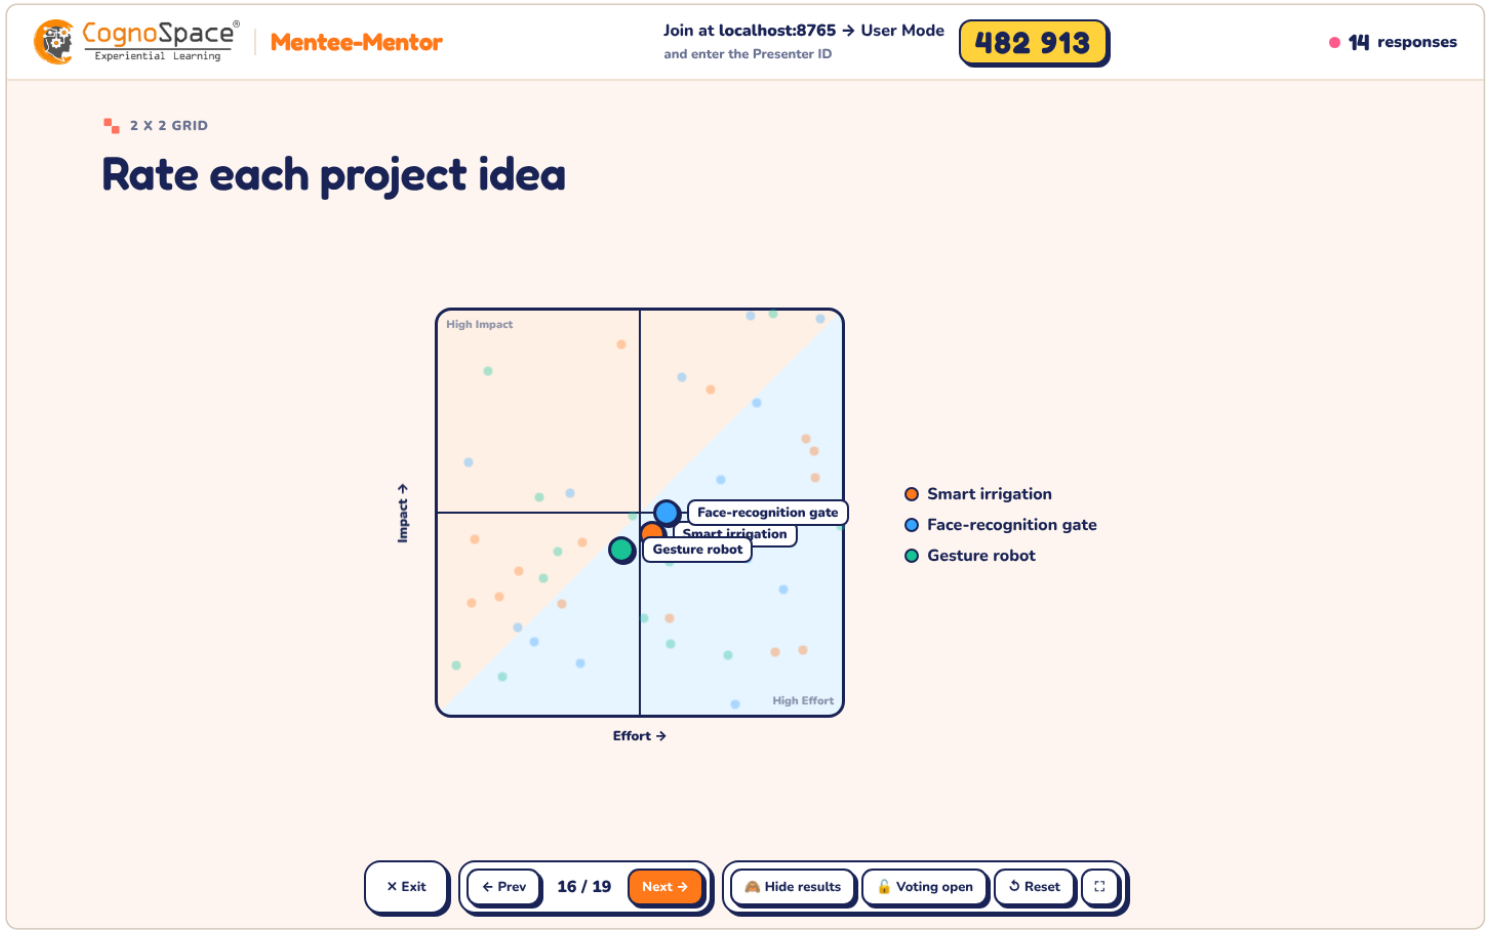

2 x 2 Grid

Mentees rate each item on two axes (for example effort and impact). The presenter screen plots them on a grid.

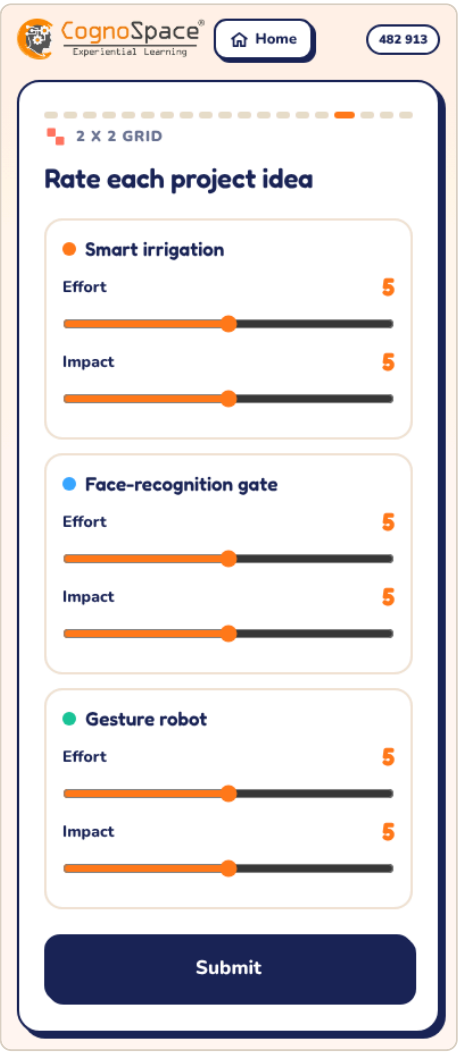

SAMPLE QUESTION

Question: Rate each project idea
Items: Smart irrigation, Face-recognition gate, Gesture robot
Axes: Effort (x), Impact (y), 0 to 10

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Items plotted on the grid; two sliders per item on the phone.

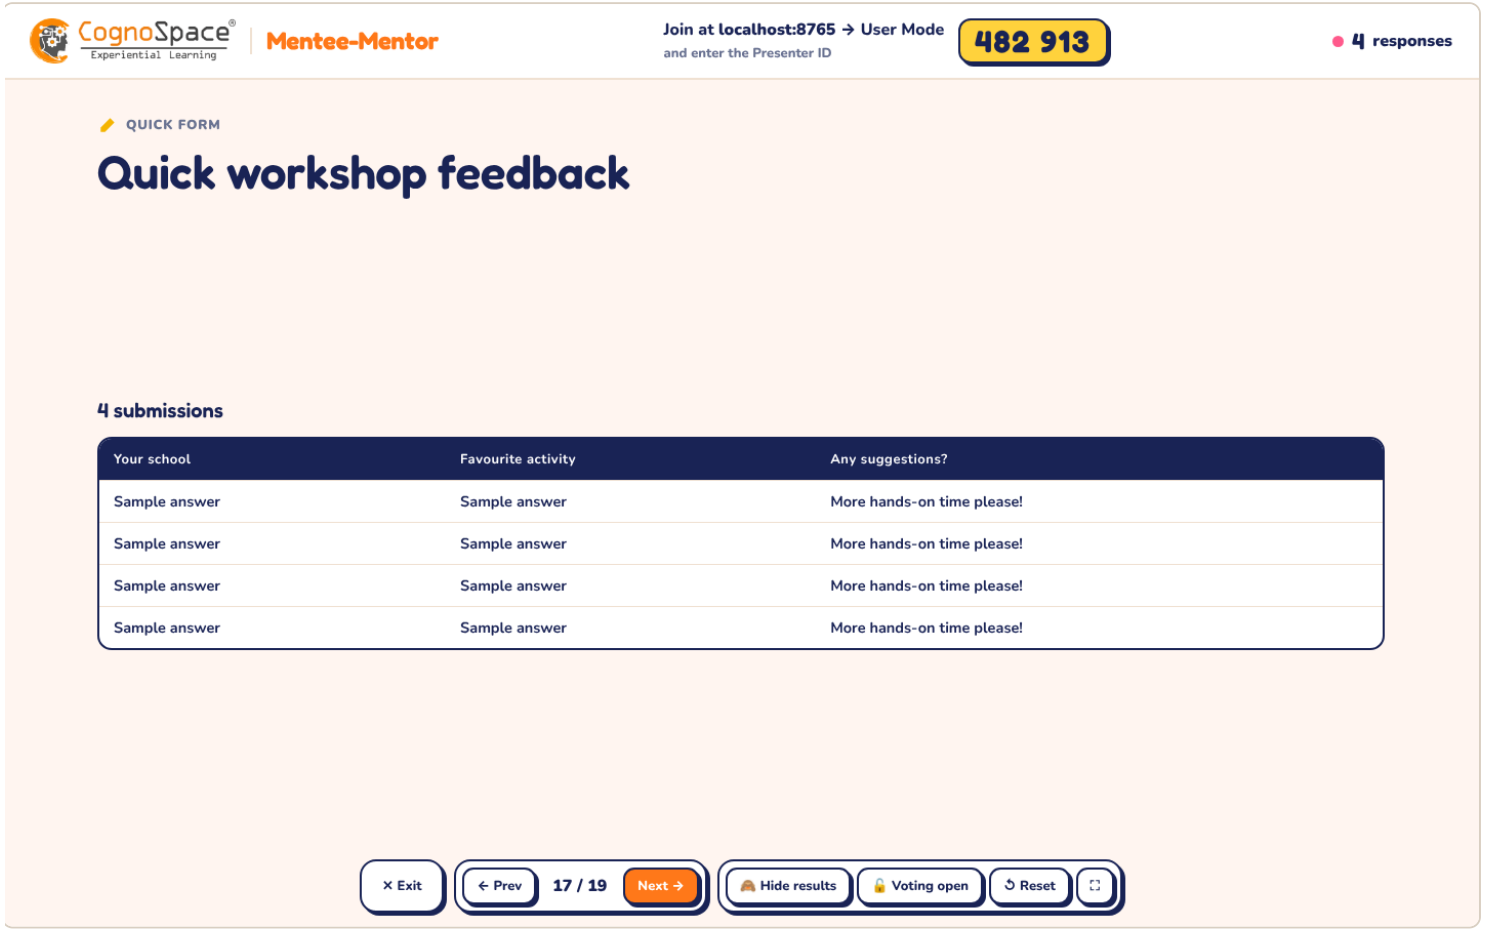

QUESTION TYPES

Quick Form

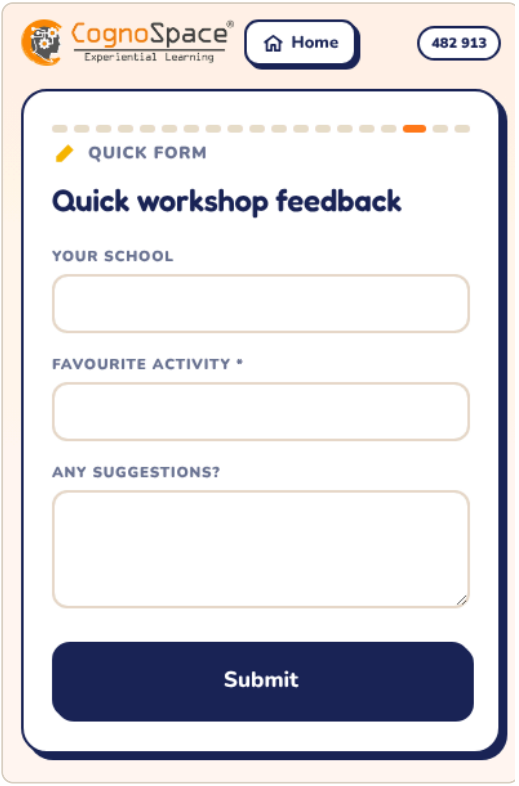

A tiny form with your own fields. Submissions appear as a table.

SAMPLE QUESTION
Title: Quick workshop feedback
Fields: Your school (text), Favourite activity (text, required), Any suggestions? (long text)

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Submissions table on screen; the form on the phone.

QUESTION TYPES

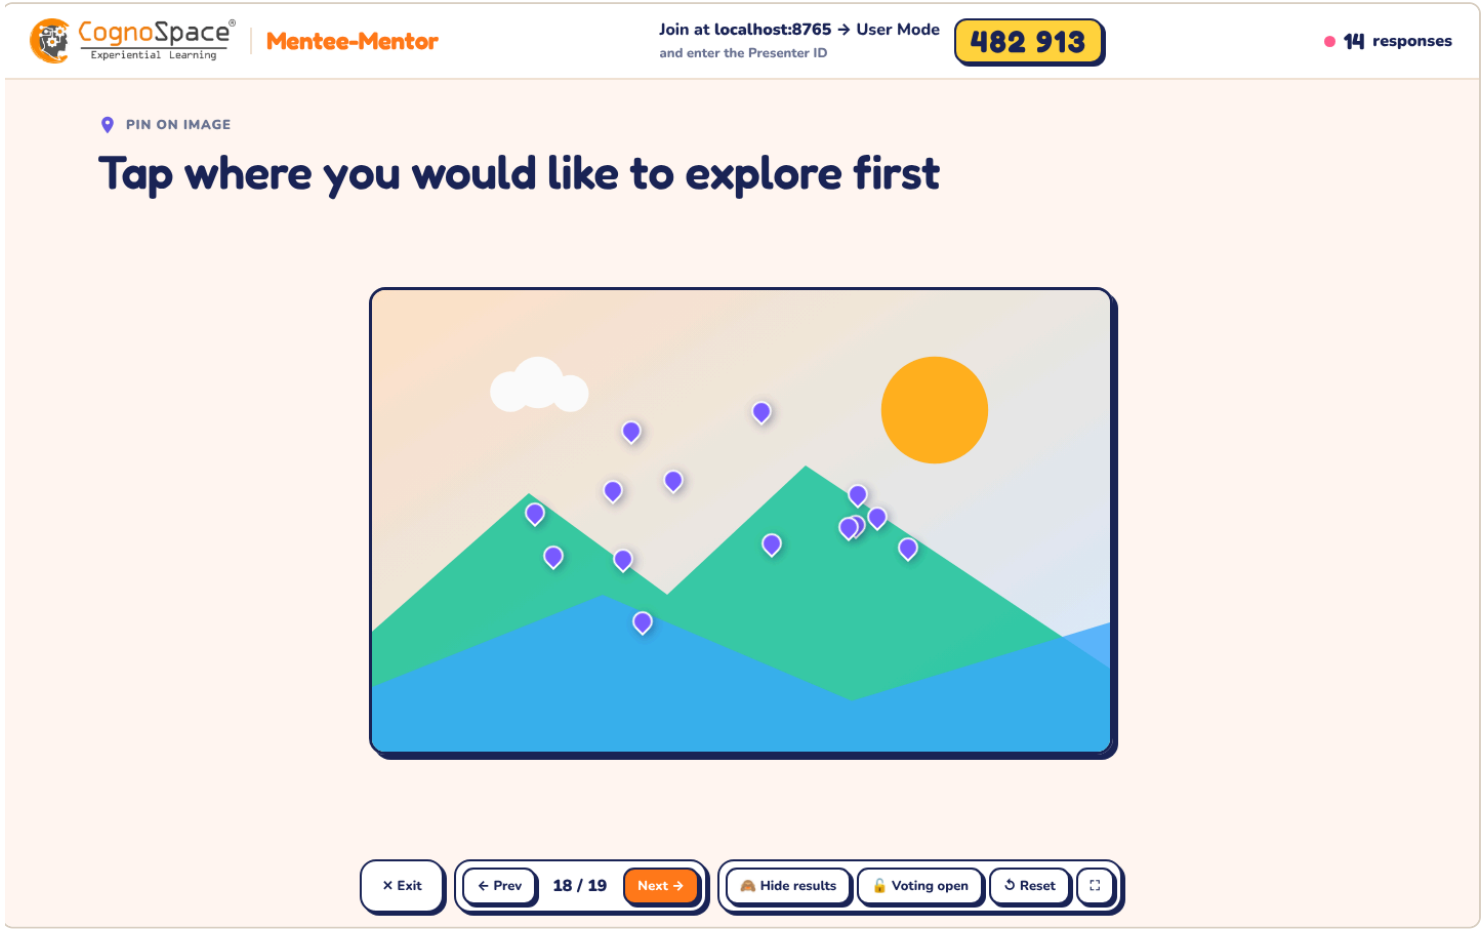

Pin on Image

Mentees drop a pin on a picture, map or circuit diagram. All pins appear on the presenter screen.

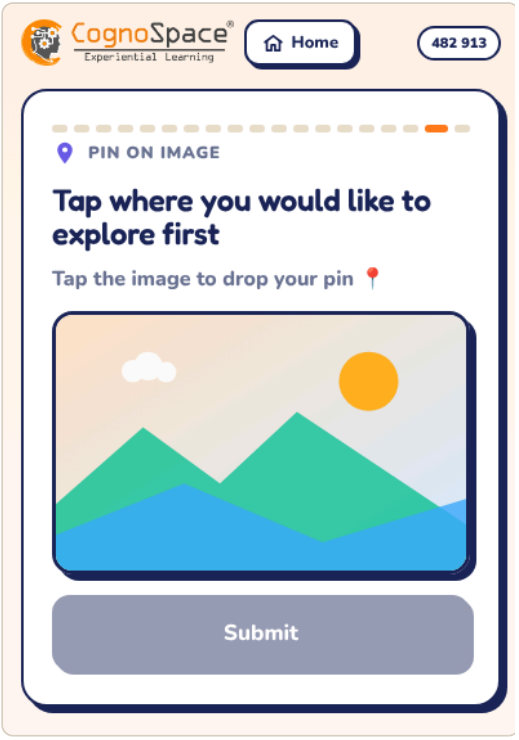

SAMPLE QUESTION

Question: Tap where you would like to explore first
Image: default landscape picture (you can upload your own)

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

All pins on the image; mentee taps to drop a pin.

OTHER SLIDES

Blank slide

Not a question. Shows the CognoSpace logo, a welcome and the session name with “Wait for the next question”.

SAMPLE QUESTION

Message: Wait for the next question

PRESENTER VIEW (ADMIN)

MENTEE VIEW (USER)

Same waiting screen on both sides.
